VIERKOTTER IS WINNER OF \$50,000 SWIM

German Swimmer Covers Twenty-One-Mile Course in Eleven Hours and Forty-Two Minutes

MICHEL, OF FRANCE, IS SECOND TO FINISH

200,000 People Greet Winner—Erickson, of New York, Finishes Last, But Wins Third Prize

TORONTO, Ont., Aug. 31.—Swimming almost as strongly as he began his long crawl at 8:30 o'clock this morning, German swimmer, Ernst Vierkotter, crossed the line winner of the Canadian National Exhibition \$50,000 marathon swim at 8:15 o'clock tonight.

Vierkotter swam the twenty-one-mile triangular course in eleven hours, forty-two minutes and twelve seconds. He was given a tremendous ovation when he crossed the line by more than 200,000 persons who jammed the waterfront. He finished comparatively fresh and held his hands high out of the water in jubilation as the hundreds of watercraft, which concentrated at the finish line, let loose their sirens in a paean of applause.

Four and a half hours after Ernest Vierkotter, of Germany, had crawled to victory, Georges Michel, of France, finished the long grind at 12:45 o'clock Thursday morning, and won second prize money, amounting to \$7,500. Swimming with an easy trudgeon stroke, Michel was greeted by several thousand people, despite the late hour.

The official time for Michel was sixteen hours and twelve minutes.

FINISHES FRESH

The Parisian, who, like Vierkotter, has just conquered the English Channel, finished comparatively fresh, and was accorded a tremendous ovation before he was hustled away to his hotel.

William Erickson, of New York, completed the last lap of the Canadian National Exhibition swimming marathon, which started at 8:30 o'clock yesterday morning at 3:31 o'clock this morning. Erickson was the last to finish, but owing to withdrawals took third place in the prize list. The other two to complete the course were Ernest Vierkotter, German, winner of the \$50,000 event, and Georges Michel, of Paris.

Competitors relapsed rapidly as midnight approached. All the women who had valiantly struggled throughout the long day, had called for assistance. Lotte Scherschonek, of New York; Edith Hedlin, Toronto; Martha Stager, Portland, Ore.; and Charlotte Barrett, who withdrew after darkness set in. Three men, Herr von Papenfus, of South Africa; Kyle Leonard, Los Angeles; and Harry L. Sullivan, Lowell, Mass., also withdrew.

At 12:08 a.m. Miss Stager, the last woman entrant in the marathon, was taken from the water.

PREMIER MacLEAN TO WAIT AND SEE

VANCOUVER, Aug. 31.—Premier J. D. MacLean, after conferring with G. G. McGeer, K.C., upon the effect of the new reduction in freight rates on grain, sailed Wednesday that he did not think it advisable to make his comment until the railways had filed their tariffs under the order. "It is not what I think, but what actually happens that counts," he said. "We appear to have gained some advantages, however."

Premier MacLean spent two hours in the Minister's room at the courthouse Wednesday, receiving callers on various matters of governmental business, and later attended the Canadian Club luncheon to hear Sir Arthur Currie's address.

Thursday, Sept. 1

344th Day, 1927

THE WEATHER

Victoria and Vicinity—Decreasing westerly winds; partly cloudy and mild with showers.

High Tide: 11:38, 7.7 feet.

Low Tide: 6:09, 4.9 feet.

Deep-Sea Shipping

Departures—Empress of Canada, for Orient.

The News

Local and Provincial—Fisheries overseer found dead in laundry and today jury brings in finding of murder.

National Chamber of Commerce busy en route to Coast for conference.

Dominion, Imperial and Foreign—English-Ottawa plane reported at 9:30 o'clock p.m.

London-to-Ottawa and Windsor-to-Windsor planes to start this morning.

League of Nations council meets this morning.

British Association for Advancement of Science opens annual gathering.

French plane climbs eight miles above surface of earth.

Guests of Canadian Bar Association

The Right Hon. Lord Hewart, of Bury, Lord Chief Justice of England, and the Hon. Sir Thomas Willes Chitty, formerly Master of the Rolls, attended the meeting of the Canadian Bar Association in Toronto on August 24, 25, and 26. Sir Willes Chitty, seen on the right, has a son living in Canada.

BATTLE BEGINS IN FREE STATE

De Valera Party and Laborites First in Field With Candidates—Government Wishes Coalition

FARMERS' PARTY DISLIKES MERGER

DUBLIN, Aug. 31.—All the political parties of the Free State have been devoting their time the last few days to preparations for the legislative elections called for September 15 and the campaign begins in earnest today.

Mr. William Cosgrave, President of the Free State Government, and nearly all his ministers are to start extensive speech-making programmes throughout the country.

The Republican party of Mr. Eamon de Valera has already published the names of forty-nine candidates. All the Laborites are re-contesting their seats and will be reinforced by other candidates. The Government has not yet announced its candidates and Captain William Redmond has given no indication of his plans for the National League party.

There is a strong movement among the Government supporters to induce the Farmers' Party and Independents to ally themselves with the Government. It is understood that individually one prominent independent, Major Bryan Cooper, has agreed to join the Government party and will stand as an official Government candidate. His abilities are recognized as fitting him for a cabinet position.

At the moment the Farmers' Party is believed likely to maintain a separate existence, but support for Cosgrave against the Labor and Republican combination.

PLANE CLIMBS EIGHT MILES

ALTITUDE RECORD MADE—AVIATOR JEAN CALIZO TELLS STORY

Earth Disappears in Haze—Temperature Below Zero—Plane Crashes

By JEAN CALIZO (Copyright by North American Newspaper Alliance)

PARIS, Aug. 31.—I've climbed high enough towards heaven to believe I have reached my limit. I have given my body time to rest. Between eight and nine miles is far enough to get away from the earth. Then, too, it is undignified to try to keep on going. I was groggy all the way down and unable to control my forces sufficiently to handle the machine properly. I took only sixteen minutes to climb fifteen thousand feet. I kept the nose always into the sky. Little by little the earth disappeared. The visibility, which was excellent at the start, lessened as I mounted, thin clouds shrouding the earth. The sky took on a fantastic blue.

Beyond thirty thousand feet the ascent slowed and I had the sensation of being lost in the sky amid intense loneliness. A sluggishness overcame all my functions as apathy comes from atmospheric depression. Any effort was impossible. I could only glance at my instruments showing through the haze. It was difficult to control the machine. A pounding in the ear and tingling all over my body warned me that I was reaching the limit of human altitude endurance. The physical depression brought a spiritual depression, causing me almost to lack the desire to keep on living. The only spark left was the consciousness that I was approaching my goal. When my altimeter indicated that I was over 42,000 feet I was satisfied to stop.

TERRIFIC STRAIN
The ascension took only two hours but it cost terrific expenditure of physical and mental energy. I reduced the oxygen as the ship rose. It was after 6 p.m. and although I was fearful of landing in the darkness in my condition, I was unable to descend rapidly. I had to give my body time to adapt itself to the now rapidly increasing atmospheric pressure. I never believed I could find Lebus Airfield, from which I had taken off. I had a moment of worry until I picked up the lights of Le Bourget Airfield, which I now fixed with my eyes and slowly spiraled down.

LANDS WERE DAZED
Fatigue and my dazed condition made me misjudge the distance to the ground.

TRADE PARLEY WILL BRING LEADING MEN

National Chamber of Commerce Train Is Now En Route to Pacific Coast for Conference

PARTY WILL GIVE ONE DAY TO CITY

Premiers of Manitoba and Saskatchewan Have Accepted Invitation to Join Special Tour

NOW that the special train of the Canadian Chamber of Commerce is on its way west to the second convention, interest is growing in this gathering of business men. Particularly in the case of the delegates have set a day for the attendance at the Pacific Foreign Trade Council here, which will be the largest of four conventions here in the second week of September.

The delegates from the East who are traveling on the special train to Vancouver will halt at various points across Canada, meeting members of the local boards of trade and chambers of commerce. As there are about one hundred on the train, and another hundred will be assembled en route, it is reported by the general secretary, Mr. W. M. Clarke, who was here last month making arrangements, that the total will number about two hundred, representative of the agricultural, industrial and commercial activities of the nation.

METHOD OF CONFERENCE

In the sessions proper of the conference, chairmen selected from Eastern, Central and Western Canada will briefly discuss the subject under review, and then preside over the discussions, which will be participated in by the accredited delegates. The open forum method of approaching national topics, by leaders who represent the varied economic interests of Canada, men who thoroughly familiar with the questions is uncommon to most conventions. The findings of the delegates are to be presented in resolution form at the close of the conference, and it is hoped, give the lead to public thinking and action in Canada on these specific questions.

The outstanding features of the programme is the personal and official greeting which His Excellency Viscount Willingdon has forwarded to the National Executive.

The probable acceptance from Eastern Canada for the meeting reached Victoria yesterday, and includes a number of prominent people.

From Western Canada will be Premier J. G. Gardiner, of Saskatchewan. Several English delegates joined the special train, which left Montreal on Tuesday.

Continued on Page 2

Population of World to Cause Problem Shortly

GENEVA, Aug. 31.—The population of the world should not laugh at the prospect of a world food problem, Professor E. M. East, of Harvard University, told the World Population conference today. He said that the world population is increasing at a rate which will make available food supply only one-eighth of the total population of 2,000,000,000 people, unless discoveries of science bring about radical food possibilities.

Professor East remarked that in one century the population had increased from 900,000,000 to 1,850,000,000, and declared that at the current rate of increase the figure of 5,000,000,000 would be reached in about 100 years.

CLEARINGS ARE MOVING AHEAD

Business Shows Growth as Reflected in Bank Statement for This District

Bank clearings for the month of August totalled \$10,273,975, as compared with \$9,325,398 in the corresponding month of 1926.

An analysis of the figures for the first two-thirds of the current year's aggregate shows that in spite of the fact that 1927 began with a drop of \$2,000,000 as compared with January, 1926, when special financial adjustments occasioned an exceptional figure, the bank clearings for Victoria are one million dollars ahead of the first eight months of 1926. April and July showed a decline this year in comparison with corresponding months, but all other months indicate an advance.

The steady character of Victoria business in recent years is attested by the fact that the fluctuation on the monthly returns for three years. This is in marked contrast with some of the Eastern cities, whose clearings have shown great fluctuation in recent months.

Sir George Foster At 80th Birthday

VANCOUVER, Aug. 31.—Senator The Rt. Hon. Sir George Foster will celebrate his eightieth birthday in Vancouver, Saturday, September 2.

FISHERIES OVERSEER'S BODY FOUND

Inquest Jury Brings in Open Verdict of Murder at Tofofo on Victim of Launch Attack

POLICE HASTEN TO INVESTIGATE

Little Is Known of Case, Owing to Meagre Communication Facilities With District

THE mysterious death of Mr. A. E. Leach at Clayoquot is occupying the attention of the Provincial Police. Little is known of the facts except that the body was found in a launch and a jury empanelled. This inquest jury decided "that the deceased met death at the hands of a person or persons unknown."

Mr. Leach was a Dominion fisheries overseer, formerly engaged in hatchery work, who had been stationed for considerable period at Clayoquot Sound. The body was found on Tuesday and police advised requisitioned from Port Alberni to Tofofo, where the inquest was held. Provincial Constables H. N. Wood and A. Monks proceeded at once to Tofofo. Realizing the importance of the case, two senior members of the force have been dispatched from Nanaimo, the administrative headquarters of the county. Inspector T. W. S. Parsons and Staff Sergeant A. T. Stephenson leaving last night. It was their intention to pick up Dr. A. D. Morgan in Alberni and proceed to Tofofo.

Neither at Provincial Police headquarters here nor at Nanaimo have any details been received. A long distance inquiry to Port Alberni last evening failed to elicit much information beyond the fact that Mr. Leach was known in the Port.

PRINCE SENDS VALEDICTORY

YEAR OF OFFICE AS PRESIDENT OF BRITISH ASSOCIATION COMES TO END

Association Congratulated on Laying Firmly Foundation of Empire Research

LEEDS, Eng. Aug. 31.—In opening the annual meeting of the British Association for the Advancement of Science, the President, Professor Sir Arthur Keith, tonight read the following cable message from the Prince of Wales, now in Canada.

"My year of office as president of the British Association has come to an end and I can only express my regret to the members of the association and to our hosts, the University of Leeds, that I am unable to attend personally in order to take my leave."

"At Oxford last year I ventured in my address to lay before the members a view of the relations between science and the state. I felt subsequently some justification for having chosen this topic, when I observed in the proceedings of the Imperial and Colonial conferences of the past year the extraordinary emphasis laid upon the value of scientific research in relation to Imperial development."

"Both conferences set up special committees on research and we cannot but believe and rejoice that the foundations of an Imperial scientific service are being firmly laid."

"Such events as these place it beyond doubt that one of the main objects of the British association itself is in process of achievement, namely that of obtaining more general attention for the objects of science."

resigning the chair to Sir Arthur Keith, I can wholeheartedly congratulate the association on its choice of my successor. His name stands very high in the science of man's origin and early biological history."

TWO PRINCES BID OTTAWA FAREWELL

OTTAWA, Aug. 31.—The Prince of Wales and Prince George today bade farewell to the Governor-General and Lady Willingdon and to Premier King and members of the Government. The Royal train arrived here this morning, Premier King being the platform to extend a welcome.

The two Princes took lunch at the Royal Ottawa Golf Club, where they played a round of golf. They then returned to the Governor-General's staff. They dined at Government House tonight.

LADNER MILL BURNS

LADNER, B.C., Aug. 31.—Property valued at between seventy and seventy-five thousand dollars was destroyed here tonight when fire originating in the planing mill of the Ladner Lumber Company, wiped out that plant, a dry kiln, a number of sheds of high-grade lumber, and five Great Northern Railway freight cars loaded with lumber. The saw-mill was saved from destruction. The loss is said to be covered by insurance.

No Word Received From London to Ottawa Plane Since Early Last Night

Message Timed 9:30 o'clock P.M. Stated That St. Raphael Was Then Still Flying—Whereabouts of Plane Not Mentioned Nor Source of Message Indicated

All-Night Watch to Be Kept Along Entire East Coast of Newfoundland

LONDON, Aug. 31.—The Imperial Airways Company has informed the Westminster Gazette of the receipt of a message, timed 9:30 p.m., stating that the St. Raphael was still flying. The whereabouts of the plane was not mentioned, nor was the source of the message indicated in the Westminster Gazette's announcement.

ST. JOHN'S, Sept. 1.—Although the big P. O. monoplane St. Raphael, which hopped off from England today with its royal passenger, Princess Lowenstein-Wertheim, was not expected over Newfoundland before dawn (between 3:30 a.m. and 4 o'clock Eastern time), lighthouse keepers along the entire east coast, were preparing for an all-night watch for the plane.

The chain of Government wireless stations on the east coast also were to be manned all night in case the plane is spoken at sea and the message relayed ashore.

UPAVON, Eng., Aug. 31.—While others waited for the favor of the elements, two British aviators and a sixty-two-year-old princess went up into the air from this flying field today to achieve what for many months has been the dream of airmen, the winning of the Atlantic from Europe to America.

At 7:32 o'clock in the morning, the monoplane St. Raphael sped down the runway with Colonel Frederick P. Minchin at the controls and Captain Leslie Hamilton and Princess Lowenstein-Wertheim aboard. There had been no certainty of a start today, but Hamilton and Minchin, who had been on the ground and the Princess drove down at an early hour and without more ado declared her intention of going along.

Shortly after noon today the civic guards and villagers of the little town of Inverin, on the north coast of Galway Bay, stood in silent awe watching the huge airplane pass over the dull blue waters of the Atlantic toward far-away America. With "all well" it should have roared its way by midnight over a thousand miles of the watery wastes of the Atlantic.

The St. Raphael's speed during the five hours' flight from England to the point where the truck out across the ocean was not more than seventy miles an hour, and it is figured that this speed will have to be greatly increased if its destination, Ottawa, Canada, is to be reached on time. But weather conditions were none too good over the British Isles, with a haze and some times a fog higher than the height of the heavily-loaded monoplane.

DODGING FOG BANKS
It flew low, now zigzagging, now circling, to avoid the fog banks and now out on best course. But when the moment came for the hop from the brink of Ireland there was no hesitancy as the plane bravely headed straight out over the broad ocean, which no longer conquered from the European side.

Added to the dramatic aspect of the start at Upton was a touching incident as the plane, blessed by the aviators, and bade them good-speed.

The pilot lights were aglow at Upton and a small force under Wing Commander Vernon Brown will stay up all night ready to handle the St. Raphael should encounter storms at sea and return here by nightfall.

The aerodrome thinks the plane will come back. The daring trio of flyers barely escaped death in the hop-off as the plane left the ground just in time to avert disaster.

It is believed that they are determined to reach their Canadian goal and get their bag of Canadian gold, \$25,000, as the prize, or die in the attempt.

They are bound for Ottawa, 2,920 miles distant and thence to London, Ont.

BRITAIN'S ADMIRALTY
Great Britain has been swept with admiration for the whole St. Raphael adventure, but it fairly gasped at the daring of Princess Lowenstein-Wertheim, at whose age most women of these islands spend their days and nights snug at their fireplaces, all thoughts of adventure far behind them.

The princess, who sits in a wicker chair in the tiny cabin of the monoplane, is following her flying hero, Hamilton, to the very end of the earth. She has gone with him on many hazardous air ventures, flights to Switzerland for Alpine sports, on reckless air races for gold and trophies but today she set out on the greatest adventure of all, and Britain is breathless until her fate is known.

The plane was first reported over St. Anne's head, coast of Wales, 150 miles away, at 9:30. Various other points sighted her, for the St. Raphael was flying low, and finally she passed out over Inverin, 370 miles from the start, a few minutes after noon.

There probably was much fog at sea, with the promise of head winds, but no severe storm as in sight.

FORMER WINNIEPEG
WINNIEPEG, Aug. 31.—Colonel F. F. Minchin, who is now somewhere over the Atlantic Ocean with Captain Leslie Hamilton and Princess Lowenstein-Wertheim in a monoplane, headed for Ottawa, was

DEAN RETURNS FROM ENGLAND

VERY REV. C. S. QUAINTON
BACK FROM THREE MONTHS' TRIP

Found Increased Interest in British Columbia—Cambridge Dons Best Informed Questioners

A noticeable growth of interest in British Columbia was found in England by Very Rev. C. S. Quainton, Dean of Columbia, who returned to Victoria yesterday after three months' absence in the Old Land. The Dean left for England in May, and in his travels up and down the country in the continental role of holiday visitor and bearer of information concerning the new cathedral here he had many conversations with people who wanted to hear something about opportunities and conditions in this part of Canada.

"I think on the whole there is distinctly more interest being taken in British Columbia than was the case three years ago, largely due to the fact that both the Canadian and the British Governments are laying greater emphasis on state-aided schemes of emigration," Dean Quainton reports. "Unfortunately, he had found very few of the right sort desiring to migrate from the Old Land. England is regarded by the majority of her sons as a place of safety for the man whose future may seem precarious; there is the dote and the prospect of an old age pension; therefore, they sometimes say, 'Why risk these things for a doubtful future on a lonely farm in Canada?'"

DISSUADES SOME

Carpenters and bricklayers whom he had found anxious to come to Canada he had dissuaded, but the type of Englishman that he did feel justified in encouraging to come to British Columbia was the man with a reasonable competence that could be brought out to supplement the income that could be made by running on Vancouver Island. There was also, of course, the desirable type of man who had a definite job already in view, or some one. He had met some of this class on the boat. He had also encouraged the idea of the adaptive type of young man coming, the type willing to be trained in any of the able preparatory classes such as that established recently by the British Government at Newcastle. These men would be willing to embrace the advantages advanced by the British and Dominion Governments.

Referring to some of the letters which have appeared from time to time in the English press from disgruntled emigrants, Dean Quainton said that the thought of the British readers as a whole paid but slight attention to these. They had slight attention to these. They had slight attention to these. They had slight attention to these.

IGNORANT OF CANADA

Among the people generally he had found a lamentable ignorance of Canada. On the other hand, he had been intelligently questioned by many of the dons at Cambridge. This was contrary to the general conception; people usually supposed that the fellows of an ancient university such as Cambridge were in a backward life where they were out of touch with affairs of the day. But they had shown familiarity with many of the political and business problems of this part of the Empire, and had asked him such questions as: Were the Chinese proving an economic menace? What was the attitude of the Provincial Government to the problem? How did Canada propose to withstand the absorption of One Best young life into the United States? Did Canada favor annexation to the United States? Were Canadians predominantly loyal to the Empire?

The geographical position of Victoria does not yet seem at all clear to the average Englishman. One Englishman had said to him in all innocence, "You are the Dean of Colombo?"

SPEAKS OF CATHEDRAL

In his effort to collect money for the new cathedral, the Dean admitted that he was not very successful. This was due in part to the fact that Bishop de Pencier only a few months earlier in the year made an appeal on behalf of the endowment of the Bishopric of Caledonia. Furthermore, England was heavily burdened with taxation, and liquid capital was diminished to move. The financial interest in the new cathedral, so far as England is concerned, has been left for the time being in the hands of the British Columbia and Yukon Church Aid Society there, and they are already making an appeal to their own supporters for immediate subscriptions. The Dean prevailed upon the society to form a special committee in London to watch over the interests of the new cathedral, and it is expected that in about eighteen months or two years' time collections will be given to the new cathedral fund by all the cathedrals and big parish churches in England.

Wherever he went, and he preached in some place every Sunday while he was away, the Dean seized every opportunity to advertise both Victoria and its new cathedral. The latter excited much interest, as everyone seemed to feel that it was a heroic effort for such a comparatively small community to make.

Among churches in which Dean Quainton preached whilst he was in England were Great Yarmouth Parish Church, of which the late Bishop Hills was at one time vicar; also Romsey Abbey.

CONDITIONS IMPROVED

"I think," said the Dean in response to a question on general conditions in England, "the industrial situation is slightly improved as compared with the conditions."

Paint a Corn With This Marvel Liquid

The pain stops in a few seconds. Tight shoes won't hurt anymore. The corn shrivels up, and drops off. Removes the whole corn and doesn't pain a bit. It's the sure remedy—Putnam's Corn Extractor. All drug stores sell Putnam's Corn Extractor. Get your bottle today. Refuse a substitute for Putnam's.

Horatio Bottomley—Before and After

HORATIO BOTTOMLEY

The former British parliamentarian and hero of the masses today, presents a physical contrast with the man who, in the years prior to 1922, exerted mighty power in the inner council of the House of Commons. Left is a picture taken five years ago of the former legislator. Right, as Bottomley is today, on his release from prison. He can regain his seat, he boasts.

When I was last there, three years ago, the coal trade and the engineering trade were still terribly depressed. But I saw fewer signs of poverty than I ever saw before, despite the alleged hard times; and certainly I saw fewer signs of intemperance, for in the three months that I was in England I only saw one drunk man. Capital is timid in the Old Land, largely due to fear because of this orderly manner, in some extent, while one part of the body has moved upward, another part has lagged behind.

search for man's ancestry. Indeed, some of us are still making it. We expected that man's evolution would pursue not only an orderly file of stages, but that every part of his body—skull, brain, jaws, teeth, skin, body, arms, legs—would at each stage become a little less ape-like, a little more man-like. Our searches have shown us that man's evolution has not proceeded in this orderly manner. In some extent, while one part of the body has moved upward, another part has lagged behind.

DATE OF MAN'S ORIGIN

Sir Arthur did not balk at making an estimate at man's age, despite the fact that he faced the leading scientists of the Empire. "All the evidence now at our disposal," he said, "supports the conclusion that man has arisen, as Lamarck and Darwin suspected, from an anthropoid ape not higher in the zoological scale than a chimpanzee, and that the date at which human and anthropoid lines of descent began to diverge lies near the beginning of the Miocene period. Our modest scale of reckoning that gives man the respectable antiquity of about one million years."

HALF CENTURY TESTS DARWIN

Continued from Page 1
"As I address these words to you, I cannot help marveling over the difference between our outlook today and that of the audience which Sir Richard Owen had to face in this city sixty-nine years ago. The vast assemblage which confronted him took it for granted that man had appeared on earth by a special act of instantaneous creation; whereas the audience which I have now the honor of addressing, and that larger radio congregation within reach of my voice, is familiar with the belief that man began his career as a humble primate animal and has reached his present state by the action and reaction of biological forces, which have been and are ever at work within his body and brain."

DARWIN'S METHOD

"Will Darwin's victory endure for all time? Before attempting to answer this question, let us look at what kind of book the 'Descent of Man' is. It is a book of histories, the history of man written in a new way, the way discovered by Charles Darwin. He dared historical documents from the body and behavior of man and compared them with observations made on the body and behavior of every other animal. He showed the least resemblance to man. He studied all that was known in his day of man's embryological history and that of a number of the real distinction of the human brain from an anthropoid brain was a quantitative one."

"In these days our knowledge of the elaborate architecture and delicate machinery of the human brain makes rapid progress, but I should mislead if I suggested that finally it is in sight," Sir Arthur said. "For in our inquiries as to the brain, there is so much we do not yet understand."

"Will the day ever come when we can explain why the brain of man has made such great progress, whereas that of his cousin, the gorilla, has fallen so far behind? Can we explain why in the matter of cerebral development the brain of man has far surpassed that of any other animal?"

The speaker mentioned the theory of Sir E. Ray Lankester that the leading factor in the development of man from other animals is undoubtedly the relative enormous size of the brain in man and the corresponding increase in its activities and capacity.

TRADE PARLEY WILL BRING LEADING MEN

Continued from Page 1

The two premiers will address the conference on the practical co-operation between agriculture and industry. The speaker mentioned the theory of Sir E. Ray Lankester that the leading factor in the development of man from other animals is undoubtedly the relative enormous size of the brain in man and the corresponding increase in its activities and capacity.

FOUR SUBJECTS

The sessions will take the form of open forum discussions on four of the major economic subjects in Canada: (1) Development of Imperial and Foreign Trade; (2) Development of Provincial Trade; (3) Development of Natural Resources; (4) Immigration.

The aims, programme and functioning of the Canadian Chamber of Commerce will also be discussed as well as the work of the local boards and chambers throughout Canada. Outstanding leaders in Canada's economic activities, such as Messrs. William M. Birks, A. O. Dawson, G. Laffoley, J. A. Paulhus, John W. Ross and George Hogg, of Montreal; Mr. S. B. Gundy and General Mitchell, of Toronto; Mr. L. W. Simms, of the Maritimes; Mr. R. O. Perre, of Winnipeg; Mr. C. O. Smith, of Vancouver; and Mr. A. M. Dollar, of the Northwest, will be among the chairmen in charge of the convention's deliberations.

ROY C. LYLE GIVEN CHANCE TO RESIGN

WASHINGTON, Aug. 31.—Treasury officials predicted today that Roy C. Lyle, prohibition administrator for Oregon, Washington and Alaska, would resign "for the good of the service." In the event, he declined to give up his post, it was indicated that he would be dismissed from the service unless there were some unexpected developments in the situation.

VISITORS FEEL FUTURE CERTAIN

Sir Arthur Marshall Says British Newspapers Will Encourage Youth to Come

BANFF, Alta., Aug. 31.—"As a result of the present visit of our party of provincial newspaper proprietors of Great Britain I am firmly convinced that the message that they will convey to their readers on their return will be one that will strongly encourage the vigorous young to come and try their fortunes in Canada," said Sir Arthur Marshall, K.B.E. of Bradford, Yorkshire, a member of the party, in an interview here today. Sir Arthur, who represents the Starmer group of newspapers in Yorkshire and was a whip of the Liberal Party in Great Britain from 1918 to 1922, stated that the visit would stir up a solid interest in Canada throughout the provinces of the Motherland.

"To my mind," said Sir Arthur, "the agricultural possibilities in this Dominion are absolutely limitless, and I am positive that British capital could be used to the advantage of both countries in the first expansion of the great industry in Canada."

MARKETS UNEXHAUSTED

"There should be no fear that markets will not be available for all the agricultural products that would be produced as a result of such expansion. Every day conditions throughout the world are becoming more and more normal, and I anticipate that before long France and Germany will become large buyers of Canadian products. I feel, too, that Great Britain and other countries of Europe, as well as the rest of the Empire, will import more and more from Canada."

Sir Arthur particularly stressed the importance of the Oriental markets. The ninety-six members of the Newspaper Society of Great Britain who are touring the Dominion over the Canadian Pacific Railway spent Monday among the orchards of Vernon. They visited Lake Louise yesterday and are spending today at Banff.

Sir Arthur stated that he was much impressed with the great strides being made with the mining industry in Canada. "I have not been able," said Sir Arthur, "to study this growing industry as much as I would have liked, but in no way have I overlooked the importance of this development to Canada, and here too, I anticipate that British capital will become freely available."

PLANE CLIMBS EIGHT MILES

Continued from Page 1

earth and I crashed, smashing the undercarriage of my plane and a portion of one wing. I did not suffer greatly from the cold because the engine of my plane was arranged so as to carry hot air into the cockpit; the cold up there is nothing compared to the depression one feels due to the heavier pressure at high altitudes. The lowest temperature I encountered was 80 degrees below zero, Fahrenheit. The plane was the same with which I achieved last summer's record of 40,810 feet. A Blériot Shade one-seater, pursuit type, with a 170-horsepower engine and a 170-horsepower engine. A supercharger attached to the motor enables it to function in the thin air above. The bottles of oxygen and a mask enabled me to live there. Before ascending all the fuselage supports had to be loosened, because the cold contracts them and if tight they would have very likely worn away from the plane, causing catastrophe and death.

PARIS, Aug. 31.—American aviators intent on breaking the world altitude record must climb higher than 42,851 feet in consequence of the feat of Jean Calzavio, Monday, topped his own record by almost 1,700 feet. Calzavio's record altitude record was 12,442 metres, and the new mark is 13,000 metres.

"Never again, I don't want to flout the earth," exclaimed the diminutive Frenchman when informed that he had attained a height never before reached by a human being.

Calzavio was picturesque in his description of his ascent. "Progressively as one soars the sky becomes more and more an intense blue—yes, insensibly blue. My climb was rather commonplace at first, reaching 5,000 metres in sixteen minutes. Then 10,000 metres after forty-one minutes. The sensation of dizziness and isolation is terrible. The eye sees nothing; the ear is paralyzed. That is the altitude record. Then comes the drop back to earth."

Levine's Plans

PLYMOUTH, England, Sept. 1.—If the St. Raphael is unsuccessful in its transatlantic venture, Charles A. Levine will start his return flight to America before Saturday, according to a statement he made last night while here bidding farewell to his wife and daughter, who sailed on the Ile de France.

Floods caused by the melting of snow caused many plants in Norway to shut down during the summer.

DURING BABY'S TEETHING TIME

The Bowels Become Loose

Diarrhoea, dysentery, colic, cramps, etc., manifest themselves; the gums become swollen and cankers form in the mouth. This is the time when the mother should use

Vancouver Protests Demurrage Charges

VANCOUVER, Aug. 31.—Objection to the Railway Board ratifying demurrage tariffs on grain cars at the Port of Vancouver, filed with the board a few days ago, were telegraphed to Ottawa today by the grain section of the Merchants Exchange and by the Board of Trade. The new tariff is to take effect September 15 unless the board refuses its ratification. Vancouver grain men contend that this is the first time demurrage has ever been charged on cars at public elevators. Spain plans to spend \$102,000,000 in improvements of its ports.

Corporal Punishment Laeful in Schools

MOOSE JAW, Aug. 31.—The wisdom of the adage that "he who spares the rod spoils the child," was endorsed by the courts of Saskatchewan for the first time in the history of the province yesterday. In a judgment handed down by Judge Ouseley in district court, it was held that a schoolmaster has the right to inflict corporal punishment on a pupil. Legal authorities dating back 200 years were the foundation for the judgment. They held that when a parent sent his child to school he gave the teacher the power to punish the child if necessary.

Conviction of W. H. Metcalfe, principal of Prince Arthur School, found guilty in police court of assaulting Mona Soudy, ten-year-old pupil, was quashed by Ouseley, who allowed costs for the appellant, both in appeal and city police court trials. In quashing the conviction Judge Ouseley held that Mr. Metcalfe had the authority to inflict corporal punishment, and in this particular instance the punishment inflicted on Mona Soudy was not excessive.

Turkish slippers are being brought into this country at the rate of 5,000 pairs a month.

MEMORIAL TO BE UNVEILED

Lieutenant-Governor Will Perform Ceremony at Esquimalt—Monument to Replace Wooden Shrine

CASKET WILL HOLD RECORD

Esquimalt's War Memorial, a lasting tribute to the nurses, sailors and soldiers who paid the supreme sacrifice, will be unveiled on Thursday, September 8, at 4:30 o'clock, by His Honor Lieut.-Governor Randolph Bruce. The service will be attended by naval and military bodies, representatives of the ex-service organizations, and the I.O.G.E.

Built by public subscription, the new memorial will replace the wooden shrine that was for a number of years situated at the entrance to the Naval and Esquimalt Garrison Church on Esquimalt Road.

The new memorial is situated close to the entrance of the Memorial Park, facing Fraser Street, on Esquimalt Road. On the front a bronze plate, bearing the following inscription, marks the function of the monument:

"To the memory of those residents of Esquimalt who laid down their lives in the service of the Empire during the Great War, 1914-18."

A marked feature of the service will be the placing of a copper casket containing a parchment scroll on which the names of the dead are written, into a recess immediately under the inscription plate. A loose stone marks the spot today, but after the service workmen will place the stone into position, where it will be securely cemented.

The flag will fly over the monument during the day, while after sunset a torch will mark Esquimalt's tribute to her residents who paid the supreme sacrifice.

RAIN WAS BELOW AVERAGE AMOUNT

At Same Time Weather of August Was Especially Sunshiney

The weather for the month of August, according to the record kept at the Meteorological Observatory at Gonzales Heights, was of average temperature, while the rainfall was below average, with the sunshine well above the average. This is the information given by Mr. P. Napier Denison, the director of the observatory, in announcing the actual conditions that prevailed. The mean temperature was sixty degrees, says Mr. Denison, which is an average for the month. The highest temperature registered was eighty-five degrees, which was reached on August 15 and 16. The lowest temperature was fifty-nine degrees, which was shown on August 28.

The total rainfall for the month was 48 or less than half an inch. This is less than the average for the period represented.

In the matter of sunshine the month of August was an exceptionally favorable one. In the thirty-one days of the month there was a total of 306 hours and forty-eight minutes of sunshine, which is nine hours above the average. It will be seen that the record in this particular for the month of August is very nearly ten hours of sunshine a day.

REALTY BOARD CONSIDERS PAPER ON SUBDIVIDING

Following the decision reached at the former meeting the members of the Real Estate Board yesterday listened to the reading by the secretary, Mr. H. Lethaby, of one of the papers delivered at the Pacific Northwest Realty Convention in Seattle a few weeks ago. This will be continued at the succeeding meetings, one of the papers being read at each of the gatherings.

The subject of yesterday's paper was that of subdivisions and the advisability of making these conform to the general plans of communities. One of the speakers offered in the paper was that before buildings were allowed to be erected on such subdivisions that it might be well to have the plans passed by the board of architects or similar body to decide whether these conformed to the general plans.

There was also reference made in the paper to the advisability on the part of subdividers to make provision for foot paths for pedestrians across plots. This, it was suggested, was an outgrowth of the tremendous increase in the number of automobiles and the danger that followed from this development. Bridge paths were also alluded to in the paper as something that might be well attended to in the carrying out of plans for subdivisions.

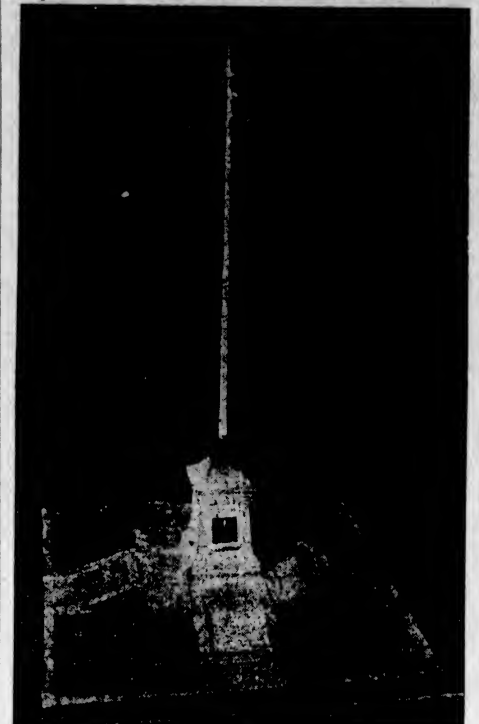

Alderman Holmes, in referring to the subject, said that there were suggestions in it that showed that there was now something of a very radical nature thought of in connection with subdividing. This one of submitting of plans to a board of architects might be very wise, but it showed to what extent this idea was being carried and the tendency to interfere with what at one time would have been regarded as interference with personal rights.

In connection with matters affecting subdividing, the speaker pointed out that if there were any rules to be introduced into the legislation it would be a good thing to do it while there was not much in this line going on. It would be a good time to bring any needed matters before the Union of British Municipalities at the convention this year.

WORSE STILL

He—I made an awful mistake just now. I told a man I thought the host must be a stingy old blighter, and it happened to be the host that I spoke to.
She—Oh, you mean my husband.

Broadcasting in Empire Is Object Of Mission

The Wireless Association of Great Britain proposes to investigate the immediate need of facilities for Empire broadcasting, and for that purpose Mr. H. Anthony Hankey, its secretary, will pay a personal visit to the Dominions and colonies in order to obtain first-hand techniques and confirmative evidence on this issue.

As a result of Mr. Hankey's visit it is expected to establish an Empire broadcasting association.

RESIDENT OF ST. HELEN APARTMENTS ENDORSES HUSKY

Tells How This Preparation, Now Distributed by MacFarlane Drug Co., Built Up Her Health in Every Way.

There certainly must be good reason for the increasing demand for Husky, the herb preparation, distributed by the MacFarlane Drug Co., which is constantly growing in popularity with the residents of this city and vicinity. The reason for this increasing demand is probably best explained by the Husky users who are returning to the MacFarlane Drug Co. and telling how Husky is relieving such ills as indigestion, gas and sour stomach.

MRS. IRENE DURHAM

"From my own experience I know that when used regularly the Husky treatment gives splendid relief from nervousness and weakness of the kidneys and bladder," says Mrs. Durham.

ach, headaches, dizzy spells, constipation, rheumatic pains, nervousness, unsteady sleep and weak, tired feelings.

Among the Victoria residents endorsing Husky for its fine work is Miss Annetta Walker, of the St. Helen Apartments, who tells as follows how Husky benefited her: "I was in a nervous, weak, run-down condition. I never felt like eating anything and food didn't seem to agree with me very well. The slightest exertion just tired me out completely."

"Hearing about others gaining new health and strength through the Husky treatment, I turned to it in my search for relief. The first two bottles of this preparation helped me wonderfully, and now I am enjoying a fine appetite and feeling fine in general. Husky is a real health builder and I am glad to recommend it to others in Victoria."

MAGISTRATE IS TO CONSIDER CASE

Charge Against Lang Will Be Determined Next Week—Evidence Complete

The taking of evidence in the case against Archibald Lang, charged with supplying liquor to Miss Dorothy Officer, a minor, was concluded in the police court yesterday. Magistrate Jay reserved his judgment in the case, setting next Tuesday as the date for handing down his decision.

The contention of the defence is that the accused did not give the young woman liquor. On the contrary it is represented that the accused was leaving the room at the time the young girl entered and that the gin, which was the liquor supplied, was poured out by the young woman herself, and taken in the absence of the accused from the room. On the part of the prosecution, however, the contention was that this did not free the accused of guilt in the matter. Mr. Claude L. Harrison, the city prosecutor, took the ground that under the Act the fact that the person was invited into the room where the liquor constituted an offence.

William F. Tolmie, called as a witness, whereupon Mr. Oscar Bass, representing him, objected on the ground that his evidence did not appear to be above, and in view of the fact that there was another charge against the witness awaiting trial, it was not reasonable to have him called to give evidence.

Mr. Harrison, however, could see no reason for excusing him from giving evidence, and the magistrate allowed the evidence.

The witness recalled the evening in question and said that he was in the room of the accused, who had invited the late Miss Jean Coddington and Miss Officer to the room.

Mr. William Moresby, who represented the accused, interrupted to know how the girls were invited to the room, and received the reply that it was through the elevator boy.

Witness went on to say that as the girls entered the room the accused left it. Miss Officer produced three drinks from the bottle that was on a table, and the girls drank one each. He did not recall whether the contents of the bottle of glass was consumed.

In reply to Mr. Moresby witness said that Lang said "good night" as the girls entered, and left the room. Miss Officer, recalled, said that the accused might have been leaving the room as they entered. He returned later, and drank a glass but she could not recall whether she and Miss Coddington had finished their glasses before he did so or not.

Mr. Moresby moved for the dismissal of the case. He argued that there was nothing to show that Lang had invited the girls to take a drink. The extent to which he had gone, it was contended, was simply to invite them to the room and the liquor had been partaken of by them without further invitation.

Site Procured for Mooring Mast of Big Airships

OTTAWA, Aug. 31.—Hon. J. L. Ralston, Minister of National Defence, announced today that negotiations for the purchase of a parcel of land near Montreal, containing approximately one square mile for the site of the mooring mast, have been practically completed.

The site selected was recommended by Major G. H. Scott and A. R. Gibbs, officers of the air ministry, who visited Canada in the early summer to assist in the choice of a suitable location.

It is on the south shore of the St. Lawrence River, six miles from the centre of Montreal, approximately four miles from the Longueuil Ferry Wharf and adjacent to Saint Hubert Station on the main line of the C.N.R. It is part of an open, level plain, well drained, of good surface and in every way suitable, the minister stated.

Now Is a Splendid Time to Do Ready-for- School Shopping

For the Balance of This Week We Are Making an

Unusual Display of New School Togs

Note the Following:

Wonderful Showing of New Winter Coats for Girls, 7 to 14 Years—Specially Priced at \$11.75 to \$27.50

The opportune time is now to select a new coat from "Campbell's" very varied stock in plain and fur-trimmed models in all the newest colors and fabrics for Fall and Winter wear. All special values, from . . . \$11.75 to \$27.50

Navy Serge Bloomers for Girls of 6 to 14 Years, at \$2.25 to \$2.95

They are fine quality and will be found splendid wearing bloomers of navy serge with band at waist and pleated. All splendid values, for ages of 6 to 14 years, and priced at \$2.25 to \$2.95

Girls' Gym Serge Tunics, \$2.50 to \$4.75
Well made and perfect fitting gym tunics for girls of 6 to 14 years. An extra fine quality of navy serge. Priced according to size. . . \$2.50 to \$4.75

GOOD FLOUR IN GARNET WHEAT

Good Texture and High Volume Insure Baking Strength That Is Requisite

Garnet seems entitled to rank among the good milling wheats. This is the considered opinion of Mr. L. H. Newman, the Dominion cerealist, as expressed in his new bulletin on "Garnet Wheat." The chief point in which Garnet may be open to a little criticism is in the color of the flour, which is slightly more yellow or creamy than is that of Marquis. The unbleached flour

of Garnet when freshly milled may be described as light yellow or creamy yellow, while that of Marquis may be described as creamy white. Since, however, bleaching and maturing processes have become highly developed and are becoming generally practised, the objection to the color of Garnet, if it is an objection, would appear to be appreciably minimized.

Garnet seems to be about the equal of Marquis in weight per measured bushel, and where the supply of moisture is ample it may even excel the older wheat. The two wheats are about equal in flour yield, but the ash content of Garnet is generally appreciably higher than that of Marquis. Garnet flour generally produces a little higher bread yield and a loaf of slightly

greater volume than Marquis. In texture of crumb Garnet is about equal to Marquis, and superior to Early Red Fife, Early Triumph and Kitchener. Good texture combined with high volume is commonly regarded as an indication of high baking strength.

TWO SWAT 600,000 FLES

During the annual "Swat the Fly" campaign in Tokio this year one aged man, with the assistance of his grandchild, killed 600,000 flies in one week. The campaign was prosecuted vigorously, parties of men being employed to parade the streets to proclaim through megaphones the necessity of slaying the germ-bearing pests. Last year 24,608,820 flies were killed in the campaign. This year the total was 34,707,177.

Mr. E. S. H. Winn Leaves

VANCOUVER, Aug. 31.—Mr. E. S. H. Winn, chairman of the British Columbia Workmen's Compensation Board, has left for Saint John, N.B., to attend the annual meeting of the Associated Workmen's Compensation Boards of Canada. En route he will visit workmen's compensation boards at Edmonton, Winnipeg and Toronto to study methods of administration.

Native Sons to Meet

The monthly meeting of Assembly No. 1, Native Sons of Canada, will be held tonight at 8 o'clock at the Sons of Canada Hall. Arrangements will be completed for the annual picnic, to be held on Labor

MODERATOR TO TOUR DOMINION

REV. DR. W. L. CLAY WILL LEAVE MIDDLE OF SEPTEMBER TO VISIT SYNODS

Head of Presbyterian Church in Canada to Have Busy Three Months

Rev. Dr. W. L. Clay, moderator of the Presbyterian Church in Canada and pastor of St. Andrew's Presbyterian Church, will leave on September 11 or 12 on his first tour of Canada in his capacity as moderator.

Intending to be gone approximately three months, Dr. Clay will visit all the synods of Canada with the exception of that of British Columbia. As this is meeting while he is in the East he will be unable to attend its sessions, but before he leaves the province he will meet the membership by attendance at the sectional gatherings, Westminster Presbyterian, convening next week, and the Kootenay Presbytery the following week. The Victoria Presbytery has been in session for the past two days.

Dr. Clay will leave Victoria September 11 or 12, stopping first at Nelson, where the Presbytery of Kootenay was obliterated at the time of disruption, and where the work is being reorganized with the opening of a new church at Slocan. From there he will proceed to Qu'Appelle, where on September 18 he will open the new church and on the same day at Regina conduct a special service dedicating the furnishings of the church there. On Friday, September 23, he will take part in the dedication of the fine new Calvin Church at Deer Park, Northern Ontario.

On Thursday, September 28, he will preach at the 140th anniversary services commemorating the founding of St. Andrew's Church, Lancaster. From Ontario, Dr. Clay will

Two Legal Lights at Recent Conference

Among the many distinguished visitors at the twelfth annual meeting of the Canadian Bar Association at Toronto were the pair shown above. Sir Henry Aldrich, K.C., at the right, came from Trinidad for the meeting. Dr. R. Macpherson, at the left, came from Tokyo, Japan.

proceed to the Maritime Provinces, and on October 4 will take part in the Maritime Provinces' synod meeting at Saint John, New Brunswick. In connection with this trip down to the east, the most part of the Dominion, Dr. Clay will take a number of unofficial excursions, among them one to his old home at Summerside, Prince Edward Island, which he will visit on October 2.

On October 9 the moderator will be at Cornwall, Ontario, taking part in the celebration of the 100th anniversary of the founding of the church there; on October 11, at the Synod of Montreal and Ottawa, also meeting in Cornwall.

On October 16 he will open the new Presbyterian church in Montreal West; October 18, attending the Synod of Toronto and Kingston, meeting in Toronto; October 25, at Red Deer, Alberta, for the sessions of the Synod of Alberta; November 1, meeting of Synod of Saskatchewan at Regina; November 6, at Saskatoon, preaching at the anniversary services in St. Andrew's Presbyterian Church; November 7, at the Synod of Manitoba, Brandon.

The pastor of St. Andrew's Church is Rev. Mr. Brown, formerly minister at Red Deer.

GIRL JUMPER NOW JAVELIN THROWER

TORONTO, Ont., Aug. 30.—Ethel Gatherwood, of Saskatchewan, who won such fame in sports here, is, according to her mother, taking her athletics easily and sensibly. Nineteen, just out of school, she has taken her first step toward Olympic trials for Amsterdam next year. She has been jumping for a long time, but just a fortnight ago she threw a javelin for the first time and made 95 feet, 6 inches.

LOCAL CHINESE TO TEACH GOSPEL

David Lee Dedicates Life to Mission Work—Interesting Meeting of Victoria Synod

Introduction of David Lee, a Chinese convert who has pledged himself and publicly dedicated his life to work among his countrymen as a medical missionary, was a feature of the public meeting held last evening at St. Andrew's Presbyterian schoolroom in connection with the sessions of Victoria Synod.

David Lee came to Victoria a little more than six years ago, when sixteen years of age, unable to speak a word of English, and unfamiliar with Christian teachings. He attended the Presbyterian mission here, became a convert, and while studying the Bible and teaching classes of his countrymen in the mission, also attended the night school and learned English. Recently he announced his intention of becoming a medical missionary, and in January will leave for China to attend the High School and University at Shanghai, where he will be supported during his six years' studentship by one of the Sunday school classes in St. Andrew's Presbyterian Church, Windsor, Ontario. Rev. David Smith, who introduced Mr. Lee, indicated the medal worn by the latter, this having been awarded for six years' perfect class attendance.

Last night's meeting taxed the seating capacity of the lecture hall of St. Andrew's Church to its utmost, the Women's Missionary Society meeting in conjunction with the Victoria Presbytery. An interesting part of the proceedings was the presentation of a life-membership in the W.M.S. to Mrs. F. L. Macpherson, the retiring president, who is leaving the city to live in Vancouver. Life memberships were also presented to Mrs. J. B. McKillop, Miss Elizabeth Gribble, and Miss Gertrude Scott.

The chief address of the evening was given by Dr. W. L. Clay, who spoke in eulogistic terms of the work of the Women's Missionary Society. In urging all present to take a deeper interest in the work of missions, the speaker referred to the large sum required to pay to the United Church due to the adjustment of work and property between the two bodies. He stated that approximately more than a quarter of a million dollars was paid over, \$80,000 of this amount having been paid by the Women's Missionary Society.

Rev. John McTurk also spoke. He emphasized the great importance of prayer in the missionary work of the church.

At yesterday's session of the Presbytery, presided over by Rev. S. Lundie, reports were given by the commissioners, who attended the last meeting of the general assembly. A strong committee under the sponsorship of Thomas Humphries was appointed to make the necessary arrangements in connection with the forthcoming visit of Dr. A. S. Grant. Standing committees for the year were appointed as follows: Missionary—Dr. W. L. Clay, J. S. Patterson, Daniel Walker, Walter Lee and W. C. Douglas; Sabbath Schools and Young People's Societies—Rev. John McTurk, G. E. Davidson and T. Humphries; Evangelistic—Rev. Daniel Walker, J. S. Patterson and Alex. Rowan; Budget—T. Humphries, Colonel James Scroggie, W. A. Jamieson and W. Taylor; Benevolent Funds—Rev. S. Lundie; Historical—Rev. W. L. Clay. The first named in each case is convener.

NEW MILK ACT COMES IN FORCE

Strict Regulations Will Be Enforced for Ensuring Clean Wholesale Supply

The act passed at the last session of the Legislature respecting the production and sale of milk for human consumption comes into effect in the province today. In addition to the provisions of the act itself there become effective at the same time regulations that have been drafted in compliance with the act.

Under the new law provision is made for inspectors who must be graduates of a recognized school of veterinary surgery, and who are required to make inspections from time to time into the conditions of the stables, the utensils, the premises and the cattle kept with the purpose of ascertaining that everything about the place is in sanitary and clean condition.

The inspection that shows the presence of tuberculosis or other disease, that in the opinion of the inspector renders the milk unfit for human consumption, must be followed by the cessation of the selling of milk.

Under the new act the power of municipalities to pass by-laws governing the supplying of milk, and the keeping of the premises from which milk is delivered for sale in a proper condition is set out. These rules must be approved of by the Lieutenant-Governor-in-Council, and following this act the inspectors appointed by the Province will also see that they are enforced.

It is announced by the Department of Agriculture that there is no intention to work unnecessary harshness upon the producers of milk, but the object is to see that through the whole of the province there is proper care taken in the supplying of pure wholesome milk.

Firm Has Many Orders in Hand

Sale of the Stone Ranch of thirty-two acres at Elk Lake, mentioned in yesterday's issue of The Colonist, was made through the office of W. J. O'Connell & Company, Bank of Nova Scotia Building. Other sales made through this office are the Putland Ranch, of five acres, Elk Lake, to a local man; a house on Walnut Street; a house on Lavender Avenue, Marigold; a house on Christmas Avenue, Mount Tolmie; one on Kings Road; one on Oakland Avenue and a lot on Monterey Avenue, Oak Bay, all to local people. They also report a good number of inquiries for residences and houses to rent.

Forty-one mills in Porto Rico ground 624,000 tons of sugar this season.

Special Stamp for Atlantic Air Mail

A special stamp for the mail to be carried by the airplane "Air John Carlin" when it takes off shortly at London, Ont., on its flight to London, England, has been authorized by the Postoffice Department. It is reproduced above. The stamp is of two colors, showing Captain Tully on the left and Lieutenant Metcalf on the right. The exact postage of letters will be cancelled with a special die at London post-office before departure and will be cancelled at the general postoffice in old London after arrival.

Obituary

DEAUVILLE—The funeral of Mrs. Mary Deauville will take place this afternoon from the family residence, 418 Gorge Road, to the Centennial United Church, where service will be conducted by the Rev. Dr. Clem Davies at 2:30 o'clock. Interment will be made in the Royal Oak Burial Park.

RUMBALL—The funeral of Ross Rumball, who died at the Jubilee Hospital on August 23, will be held from the Sandi Funeral Chapel this afternoon at 3:30 o'clock. Interment will be made at Ross Bay Cemetery.

FARMER—There died on Wednesday afternoon at the Royal Jubilee Hospital Rhoda Farmer, aged forty-one, wife of William E. Farmer, of 2948 Scott Street. She was born in Jackson, Michigan, but came to Victoria when a child of four years with her parents, the late Mr. and Mrs. William Sall. Mrs. Farmer is survived by her husband and one daughter, Rhoda Marie, and three sons, William E., Thomas and John, all of Victoria, also one brother and two sisters. The funeral will take place on Friday afternoon from McCall Brothers' Funeral Home, and proceed to St. John's Church, where services will be held at 2:30 o'clock. Rev. F. A. Chadwick will conduct the service. Interment will be made in Royal Oak Burial Park.

COFFIN IS FOUND; QUEEN IS MISSING

NEW YORK, Aug. 31.—Queen Hetep-Heres is still among the missing.

A report received from Dr. George A. Reisner confirms previous news dispatches that a coffin identified as that of Queen Hetep-Heres, mother of Cheops, the famous ruler of Egypt, more than three thousand years ago, has been opened by members of the Egyptian expedition sponsored by Harvard University and the Boston Museum of Fine Arts, and found empty. Members of this scientific party have been seeking the body of the missing queen for more than two years.

Ten million men and boys will catch 500,000,000 fish in the United States this year, according to official estimates.

Constantinople May Come Back As Turk Capital

CONSTANTINOPLE, Aug. 31.—Rumors that Constantinople might again become the capital of Turkey, which have been current here since the arrival from Angora of President Mustafa Kemal Pasha, have reached such a pitch that the official organ, Milliet, recently devoted an editorial of denial to them.

The rumors have been greatly strengthened by the installation of a central heating system in Dolma Bagiche Palace and the editorial referred to this specifically, declaring that the heating system was being installed simply because the president might repeat his visit in the winter. The editorial declared that all the political aspirations of Turkey demand that the capital remain at Angora, to which it was transferred in November, 1922, after the revolution which drove out the sultan.

"Makes my Washing Whiter"

"ONCE I rubbed and scrubbed my clothes to get them clean. But now, like millions of other women, I use a new way that makes my washing snowy white."

"This new way is with Rinso. It's simple and safe. Just soaks out the dirt and stains, and leaves me only the rinsing to do."

"Rinso saves me hours of hard work, yet makes my clothes whiter than ever."

City & District

Chimney Fire—A chimney fire at 631 Government Street gave the fire department a run yesterday.

Attends Fall Fair—Hon. E. D. Barrow, Minister of Agriculture, is absent from the city attending the Fall fair at Chilliwack. With Mr. H. J. Barber, M.P., he officiated at the opening of the exhibition yesterday.

New Teachers Named—The School Board has added four teachers to the city staff to fill vacancies that have occurred. These new appointments are: Miss M. L. Hobkirk, Miss Madge Daniels, Miss Elsie E. Parfitt and Miss Florence B. Porter.

China Inland Mission—Mr. Bernard Lambert, who has recently returned from China, will address the monthly meeting, on Tuesday, September 6, at the Y.M.C.A. at 8 p.m. A cable has been received from Dr. Howard Taylor, from New Zealand, stating that, owing to Mrs. Taylor's slow convalescence, they very reluctantly must cancel their September engagements.

Canadian Stamps as Souvenirs—The Postmaster at Guelph, Ontario, in addition to offering a set of the Confederation issue of Canadian stamps at cost, eighty cents, is calling the attention of tourists to the fact that for \$2.10 a complete set of Canadian postage stamps, including the Confederation issue, may be purchased, tourists being advised "to take a set home."

Beach Picnic—A beach party under the auspices of the Ladies' Aid of the Victoria City Temple, will be staged at Willows Beach tomorrow at 7 p.m. Members and friends of the City Temple are invited to attend this gathering. Hot dogs, tea and coffee, candies, etc., will be served, and a big bonfire will be provided. The City Temple Band will give concert music. In case of rain the picnic will be transferred to Temple Hall and carried on as planned.

VETERAN BANKER TO RESIDE HERE

Mr. A. F. D. MacGachan, Former Manager of Bank of Montreal, Winnipeg, Arrives in City

One of the best-known banking men in Western Canada has arrived here to reside in the person of Mr. A. F. D. MacGachan, of Winnipeg, manager of the Winnipeg branch of the Bank of Montreal.

Mr. MacGachan, who is accompanied by Mrs. MacGachan, has taken up temporary residence at the Empress Hotel. He explained last evening that they have made arrangements to move to a house shortly.

Both were the recipients of many tributes and presentations on leaving Winnipeg. Mr. MacGachan has enjoyed the confidence of the business men of Winnipeg in a marked degree, and opportunity was taken of the valedictory dinner, at which Hon. Robert Rogers presided, to make reference to his services to Winnipeg.

Mark Tillery Known To Vancouver Police

VANCOUVER, Aug. 31.—Mark Tillery, alias McGill, whose legless body was found in an automobile in Detroit on Monday, was well known to Royal Canadian Mounted Police in Vancouver.

Just a year ago Tillery, who was known here as Lumsford, was arrested on a charge of having narcotics in his possession and was released on \$5,000 cash bail. This bail was forfeited when he disappeared.

Health and Diet Advice

By DR. FRANK MCCOY

WHY SO MUCH SPINACH?

Health writers and dietitians usually disagree with each other on almost every subject of importance in dietetics. Vegetarians think that meat is a source of all our infirmities, while the doctor who is obsessed with bug-phobia warns us against eating uncooked vegetables. And yet there seems to be at least one vegetable that all agree is good and useful to everyone. Cooked spinach is prescribed by every health authority—dietitian, physician, chiropractor, naturopath—and even my Christian Science friends seem to have accepted the habit of eating plenty of it.

Spinach is one of the oldest of our green vegetables, and was freely used even in the days of the Medes and Persians. Long before organic chemists discovered that spinach contains a large amount of iron, this green vegetable was used for its health-giving properties. The French call spinach "billy broom" because of its value as a roughage, but they also call it "death of the butter" because of the custom of adding a large amount of butter to spinach while it is cooking. Spinach does provide an excellent roughage, but does not contain much cellulose, and therefore, is not really scratchy or rough to the intestines. Even the most primitive

people realize that it is advisable to use large quantities of bulky green vegetables to fill up the alimentary canal and assist in the peristaltic action of the stomach and intestines. Only a few centuries ago it was discovered that spinach contains more iron than any of the other green vegetables, with the exception of lettuce and calcium, and is therefore, an excellent blood builder. These valuable minerals are more easily available if the spinach is eaten uncooked, but considerable quantities of the organic minerals and vegetable salts are retained if the spinach is not cooked for too long a time. The best method of preparation is by steaming or boiling for five or ten minutes.

It is unwise to use condiments for seasoning, but most people will enjoy creamed spinach made by mincing the spinach fine and adding a small amount of warm cream and seasoning with a little salt as desired.

Spinach should be always well washed in running water to remove any sand or poison spray which the gardener may have used. Try using spinach as a salad vegetable, keeping it on ice after it is washed, and serving when crisp and cold.

Spinach never produces flatulence, and, therefore, may be used in unlimited quantities by everyone, and is especially to be recommended for those inclined to excessive gas formation.

QUESTIONS AND ANSWERS

Question—Anna E. asks: "Will you be kind enough to tell me what would be the correct treatment for a young man about twenty years of age who has a great deal of albumin?" The company doctor advised him to go to bed.

Answer—The going to bed treatment will be of little permanent use to a young man twenty years of age who has such a serious disorder of

metabolism as to have a great deal of albumin in the urine. He needs diet and exercise to correct the faulty metabolism which is responsible for his trouble. Keep him on his feet and fighting to get well, as this is his only hope.

Question—Mrs. J. A. T. asks: "How are codded eggs prepared?"

Answer—Coddled eggs are prepared by pouring boiling water over them while in the shells and allowing to stand about eight minutes. When broken open the egg should have a jelly-like consistency, but at the same time should be so well cooked that there is no transparent albumen.

COUNCIL WILL BE ASKED TO OBTAIN TRAFFIC FIGURES

A request will be sent to the City Council by the local Real Estate Board suggesting that the Council take steps to have the traffic data gathered in the city at least twice a year. This subject was introduced at the luncheon meeting of the Board yesterday by Mr. David Leeming, who said that he had been deeply interested in the figures that had been prepared by Mr. James Fairweather recently.

Mr. Leeming was of the opinion that there should be some definite principle decided upon in the city for the estimating of values. There was nothing that would aid in this more than the traffic figures. They would also be of the greatest value to the owner when he had occasion to appear before the Court of Revision. The information would be of value to the owner and the agent in the arriving at rental or selling values of properties.

His motion that the Council be asked to have these values taken twice a year was carried unanimously. Alderman Holmes, who was in the chair, said that the action on the part of the Council which resulted in the getting of the figures taken by Mr. Fairweather had arisen from the recommendation of the last Court of Revision.

PRETTY WEDDING CELEBRATED HERE

Bridal Keltine Attired in White at Yesterday's Smart Wedding— Couple to Live in Havana.

One of the prettiest weddings of the season took place yesterday afternoon at 2:30 o'clock at the First United Church, when Rev. Dr. McLaren, of Vancouver, assisted by Rev. W. G. Wilson, D.D., united in marriage Helen, only daughter of Mr. and Mrs. Peter McNaughton, of "Bonhella," Gordon Head, and Mr. Hugh Alexander Chisholm, of Havana, Cuba, son of Rev. John Chisholm and Mrs. Chisholm, of Montreal.

The bridegroom, who was born in Kamloops, graduated from McGill University in law, and from Queen's University in arts. He served overseas in the Great War and was appointed Canadian Trade Commissioner for Latin America, later performing a similar mission in India. He is now supervisor in Cuba for the Sun Life Insurance Co. The bride, who has a host of friends here, is a well-known member of the teaching profession, having been on the staff of Fraser School in Vancouver, later teaching in China. Since her return she has taught in the junior class of the Gordon Head School.

The church was charmingly arranged with a mass of summer flowers, the artistic handwork of Mrs. F. M. Broddy and Miss Helen Lackie, assisted by many friends of the bride. Gladioli, dahlias, and asters in two shades of mauve and pink formed the two arches over the altar, and cosmos and Shasta daisies marked the guest pews.

The bride, who was given in marriage by her father, was handsome in a graceful frock of white georgette, with long lace bodice and bouffant skirt, the former, vandyked over a vest of white georgette, being edged with brilliant. The long veil of Honiton lace was arranged in coronet fashion, and circled by a wreath of real orange blossoms. The diamond brooch at her throat held a spring of white heather, and her shower bouquet was composed of Ophelia roses, blue delphinium, white heather and swansonia. Miss Charlotte Black, of Kelowna, in a bouffant frock of white crepe meter, and Miss Patricia Barr, in white crepe meter fashioned on slender lines, were the bridesmaids, both wearing white picture hats with streamers of white georgette, and carrying sheaves of gladioli in pastel shades of mauve and pink. The little Misses Helen Vantrigh and Marthanna Elvidge were flower girls, wearing dainty white silk frocks smocked in pastel shades and carrying baskets of flowers in similar colorings.

Mr. R. H. Arnott, of Vancouver, cousin of the bride, supported the bridegroom, and the ushers were Messrs. I. Dilworth and W. F. Somers.

Mrs. R. J. Gurney played the wedding music and during the service Miss Marjorie Watson sang Dickens' "Thanks Be to God." A largely attended reception was held at "Bonhella," the home of the bride's parents, at Gordon Head, after the ceremony, when Mrs. McNaughton, in a gown of white georgette over broad silk, and a hat of white georgette ribbon, assisted in receiving the guests. The reception rooms were beautifully decorated with dahlias, cosmos and larkspur, and on the luncheon table sweet peas, cosmos and scarabaeus made an effective decoration. The handsome wedding cake was cut by the bride, whose health was proposed by Rev. Dr. McLaren, of Vancouver, who had officiated at the marriage of the bride's parents. The numerous wedding gifts were displayed in one of the reception rooms.

Mr. and Mrs. Chisholm left for a motor trip of Vancouver Island, and will later leave for Toronto, Montreal and New York, where they will spend some time before sailing for Havana, Cuba. The bride's traveling costume was a smart ensemble of three tones of caramel with a hat to match.

Miss Violet Powkes has returned from Cornish School, Seattle, and will reopen her dance studio September 12.

Former Nurses Raise Poultry in Natal

These two Canadians, former war nurses, now raise poultry in Natal. Miss F. L. Harvey, at the right, left Hamilton, Ont., during the war to drive an ambulance in the Balkans battle fields. There she met Miss Marjorie Pope Ellis, left. After the war they established a poultry farm in Natal, South Africa. Now on a Canadian vacation, they find themselves all in love with their new country.

ENGLISH VISITOR TALKS TO STUDENTS

Mrs. R. S. Henderson Speaks of Women's Guild of Empire School to Dramatic School

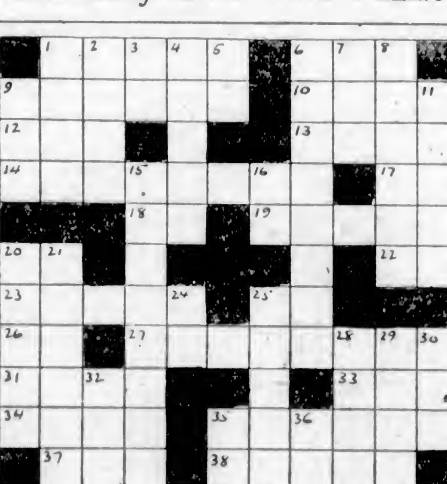

Mrs. R. S. Henderson was the guest of honor last night at the B.C. Dramatic School, where she spoke on the work and aims of the Women's Guild of Empire. Miss Ethel Bale and Miss Nellie Scovcroft welcomed the guests on behalf of the school. Mrs. Henderson dealt briefly with the dangers arising at the present day from the spread of Communist theories. She indicated how the work of the W.G.E. would spread a knowledge of economic and imperial questions in order to create an atmosphere of tolerance and mutual understanding. "The W.G.E.," said the speaker, "is working to restore peace at home and to establish industrial prosperity. The good effects secured there will unquestionably react to the advantage of the workers of the Dominions."

Many amusing incidents of the recent coal strike in England were dealt with. "The W.G.E. worked strenuously in the interests not of one class but of all classes. The W.G.E. believes," said the speaker, "that better conditions can only be obtained by seeing each other's point of view, and by the tolerant co-operation of all classes." Dealing with the question of wages, the speaker said "we want equality between men and women, so that the standard of wages for men shall not be lowered by cheap woman labor." Mrs. Henderson concluded by saying how much she had enjoyed, and was enjoying, her visit to Canada, and how greatly she was impressed with the possibilities and great future of the country. She assured the audience of a cordial welcome for any who should care to call, when in England, and meet her in her London home. A beautiful bouquet of sweet peas was presented to Mrs. Henderson.

A "FEED OF CORN"

GIBBONS ROAD, Aug. 31.—Mr. and Mrs. A. Burkholder entertained some sixty members and friends of the Young People's League of Dun Can United Church at a "corn roast" at their home, Gibbons Road, on Monday evening. Lanterns were hung in the orchard and games enjoyed until 10 o'clock, when the guests gathered on the lawn for a "feed of corn." Cake and tea was also served, after which a lantern hike was enjoyed. During the summer months several of these outdoor gatherings have been arranged by the social committee convened by Miss Ada Burkholder.

SCHOOL TEACHERS GIVEN INCREASE

Sanich Trustees Strengthen Staff of Outlying Schools for Coming Term

The Sanich Board of School Trustees yesterday devoted a large part of their special meeting to the adjustment of teachers' salaries and strengthening the staffs of the outlying schools. Inspectors' and principals' reports were considered and teachers' records thoroughly gone into before granting increases to a number who have shown advancement during the past year.

In thirteen Sanich schools 105 pupils out of 180 were successful in passing the entrance examinations leading to high school. Chairman F. V. Hobbs pointed out. The majority of schools showed that the present system of education is being carried out well and is producing results that were found to be quite satisfactory.

Trustee R. Macnicol thought that salary increases should be made contingent upon teachers taking supplementary work, when it was found that several with second class certificates had made no attempt to attend Summer school classes when advised to do so by the board. It was agreed to notify several teachers holding third class certificates that they would in future be expected to attain a higher standing. Trustee H. P. Thorpe said that third class teachers were doing satisfactory work and in some cases could do no better even if they attained higher grades. Trustee Mrs. Jean McN. Beckett countered that

it was never too late to learn. Trustee Macnicol said teachers holding third class certificates, which are no longer granted, could only hold positions in Sanich. A motion was finally passed recommending that the teachers under discussion obtain further teaching knowledge before being granted increases in salary.

Trustees Mrs. Beckett and Mr. P. V. Hobbs were appointed delegates to the British Columbia School Trustees' Association convention to be held at Harrison Hot Springs from October 17 to 19. Subjects to be discussed at the convention will be sub-normal children, teachers' educational and psychological qualifications and many other problems.

Mrs. Beckett told of nervous children who had failed in examinations although they were good scholars in other respects. Others, she said, were disqualified on account of being bad writers, and these and other cases should be brought to the notice of the convention and some plan worked out to help them. Mrs. Beckett also advocated the elimination of school Christmas concerts, mentioning that much time that should be devoted to study was wasted by pupils in preparation for the events. She quoted several principals who were absolutely in favor of the move, and it is likely that the board will act definitely on the suggestion in the near future.

Society and Women's Affairs

Miscellaneous Shower

Miss Phyllis Petherbridge entertained at a miscellaneous shower on Monday evening at the home of her parents, the Fawcett Apartments, in honor of Miss Queenie Brown, whose marriage will take place on September 3 to Mr. Jack Donaldson. The many gifts were arranged in a "wishing well," prettily decorated in mauve and pink. Little Miss Muriel Petherbridge, as the "spirit of the well," presented the gifts to the bride-elect, dressed in mauve silk. The dining-room was attractive in a color scheme of mauve and pink. The table was centered with a large kewpie dressed as a bride, concealed among a shower of streamers. The evening was spent in dancing and singing, and at midnight a buffet supper was served by Misses Helen Robertson, Milly Little, Iva Hall and Phyllis Petherbridge. The invited guests included: Mrs. Bramwell, Mrs. White, Mrs. Zala, Mrs. Olive, Mrs. Webb, Mrs. Brown, Mrs. Petherbridge, Misses Elsie Dunn, Pat Phillips, Francis Lane, Agnes Nyland, Helen Robertson, Dorothy Ashley, J. Stewart, Blossom Barnett, Molly Little, Marjorie Little, Muriel Petherbridge, Grace Cotton, Kay Tadmam, Betty Hamilton, Mary Anderson, Doris Neaver, Janie Beckett, Irene Crowther, Volite Novles, Erva Hall, Queenie Brown and Phyllis Petherbridge.

Tea Party for Visitor

Miss Rosemary Johnston was a charming young hostess yesterday afternoon when she entertained at a tea party at the home of her aunt, Mrs. E. G. Prior, St. Charles Street, in honor of Miss Louise Brown, of Vancouver. The table was beautifully arranged with pink dahlias, and was presided over by

Miss Catherine Fraser and Miss Polly Luxton, assisted by Miss Cynthia Johnston and Miss Frances Fraser.

Those invited were Misses Louise Brown, Mary Ogilvie (Toronto), Margaret, and Elaine Gailther, Louise Wilkerson, Jean Moody, Doris, Jean, and Athalie Gibson, Kathleen Ross, Kay Clay, Cecilia, and Frances Hamerley, Mary Martin, Margaret Homer Dixon, Catherine and Marjorie Fraser, Betty Shaw, Elsie Money, Eva McIntosh, Mary Swinerton, Mary Sutherland, Nan Eve, Polly and Fifi Luxton, Kathleen Harris, Sheila and Daphne Gillespie, Betty Barty, Velda Rithet, Sheila McBride, Kathleen Hall, Helen and Jean Campbell, Doris Marshall, Trudie Green, Pamela Charlewood, Barbara Twigg, Hilda Butterfield, Elizabeth Macdonald, Pamela Winlow, Marguerite Sanderson, Kathleen Wilson, Amy Adamson and Helen Harris.

Marriage in California

On August 12, Miss Lorraine V. Johnson and Dr. Ralph E. Sand were married in the Trinity Episcopal Church in San Francisco. The couple are spending three weeks touring Southern California and Grand Canyon of Colorado. On their return they will reside in San Francisco. Miss Johnson, the daughter of Mrs. Violet Johnson, was formerly a student at Victoria High School, Victoria College and Normal School, and for one year taught school in British Columbia. Dr. Ralph Sand is the son of Mr. and Mrs. E. Sand, of San Francisco, and a graduate of the University of California in Berkeley.

Dance Hostesses

The Misses Muriel and Olive Farley entertained about seventy of

their friends to a dance Tuesday evening at the home of their parents, Victoria View, near the city.

Among those present were Misses D. Cook, M. Hemen, H. Carver, Johnstone, D. Dicks, and M. Mearns. Ben McMillan, Monte Locke, Reg. Williams, John Harrison, Malcolm Elliott, and many others.

Alexandra Club Luncheon

Mrs. R. S. Henderson, of London, ex-president of the Women's Guild of Empire, was the guest-of-honor at a luncheon given by the committee of the club on Tuesday. Mrs. L. Bullock-Webster was also a guest. In addition to Mrs. Henderson and Mrs. Bullock-Webster, the following members of the committee were present: Mrs. Alice Thomson, president; Miss Josephine Cressie, Mrs. Colin Cummins, Mrs. Healy Ker, Mrs. Kaye Puckle, Miss Clearhue, and Miss Brown. After adjourning to the library and before commencing an interesting little talk on the work of the league, Mrs. Henderson was presented by the president with a bunch of pink sweet peas.

Tea for Visitor

Mrs. R. S. Henderson, ex-president of the Women's Guild of Empire, was the guest of honor at tea yesterday afternoon at "Windyside," the home of the municipal regent of the Daughters of the Empire, Mrs. J. Hedden Gillespie. Invited to meet Mrs. Henderson were the regents of the primary chapters. Tea was served in the dining-room, the table most charmingly arranged with a bowl of rose pink asters and eysophilla, and presided over by Mrs. Curtis Sampson and Mrs. C. P. Hill. During the afternoon Mrs. Henderson spoke on the work of the guild in England and was presented with a sheaf of sweet peas, asters and gladioli by Mrs. C. P. Hill on behalf of the members of the chapter.

Tea Hostess

Mrs. G. B. Williams entertained at tea yesterday afternoon at her home on Monterey Avenue, in honor of Mrs. J. C. Boldero, who is leaving today for Shanghai. The guests included Mrs. G. C. Grant, Mrs. K. F. R. Denniston, Mrs. A. deM. Mellin, Mrs. Roy Hadley, Mrs. R. H. Port, Mrs. C. R. Schaff, Mrs. Leslie Gault, Mrs. G. Holm, Miss Beryl McCulloch and Miss Ines Carey.

Wedding Take Place

The wedding was celebrated quietly last evening at St. Paul's Naval and Military Church, Esquimalt, by Rev. Canon H. W. G. Stocken of Mr. B. Digby Robinson, of Admiral's Road, and Miss Lela Burpee, of Vancouver. Those present at the ceremony were Mrs. Boldero, Mrs. Norman Yarrow, Mr. Norman Yarrow, who acted as best man, and Mr. A. M. D. Fairbairn.

Return From Mainland

Mr. and Mrs. G. Jennings Burnett and family have returned from the Mainland, where they were the guests of Dr. and Mrs. T. H. Lennie, Point Grey, and Dr. and Mrs. E. H. McEwen, of New Westminster. They were accompanied by Miss Edith McEwen, who will be their guest for a few days.

Visitors Here

Mr. and Mrs. Horace Tyler, of Tacoma, are the guests of Mr. and Mrs. Stephen Jones, Douglas Street. During their visit Mr. and Mrs. Tyler have celebrated their fiftieth wedding anniversary. Mr. Tyler is the grand secretary of the A.P. & A.M. of Washington.

Party for Visitor

Mrs. Norman Payne entertained at bridge and mah jong yesterday afternoon at her home on Linden Avenue, in honor of her sister, Mrs. C. Payne, of Vancouver. The table was arranged with pink dahlias. Many additional guests arrived at the tea hour.

Visitors Entertained

Mrs. J. J. Shallos, Cold Harbor Road, entertained at a small bridge party on Tuesday afternoon in honor of Mrs. Tillinghast, of Rhode Island, and Mrs. George Merrill, of Pasadena, who is spending the summer in Victoria.

At Empress Hotel

Mr. and Mrs. George G. Heie, Miss Meredith K. Page and Mr. Harman W. Hendricks have arrived from New York to make a prolonged visit here, and are at the Empress Hotel.

At Empress Hotel

Mrs. H. B. Johnson and Mrs. Harry Box arrived recently from Australia and are spending a few days at the Empress Hotel before leaving for England, via Banff and Lake Louise.

At Empress Hotel

Mr. and Mrs. C. B. McNeill, of Vancouver, are at the Empress Hotel for a few days.

Miss S. Cressie, of Victoria

is the guest of Mrs. Layard on Sunday.

Mr. and Mrs. Carlin and their

two daughters will leave on Wednesday to spend a week among the Rockies.

Miss Eleanor Bowman, of Breed's Crossroad, will leave shortly to enter the Jubilee Hospital for her first year in training.

Mr. L. Lever and son, of New Westminster

spent the week-end as the guests of Mrs. Clark Davidson.

Miss Irene Moses, who has spent the summer holidays with her

parents, Mr. and Mrs. Chris Moses, of Deep Cove, left on Wednesday to resume her teaching.

Mrs. Buckman, who has been spending the past two months with

her husband at Kimberley, returned to her home on Saturday. Mr. Buckman, who accompanied her home, will remain here for two weeks.

Mr. Ted McLeod, of Victoria

is the guest of Mrs. Eugene Hollins for a few days.

Miss Ruth Hanson, of Victoria

spent the past two weeks as the guest of Mr. and Mrs. J. A. Nuhn, of Centre Road.

Miss Ethel Thompson, of Deep Cove

left today for Victoria, where she will spend a few days visiting friends.

Langford

Mrs. Sainy spent the week-end at "Carlisle," Langford Lake.

Miss Bessie Milne, of Victoria

was a guest at the home of Mrs. H. Catterall, Langford Lake, over the week-end.

Mrs. H. A. Hincks, accompanied by

her three children, Stella, Ellen and Kenneth, took a trip to Port Angeles on Monday.

Mr. and Mrs. A. G. Mackie spent

Sunday at Orcas Island.

Mrs. Jones, of Hampton Court

Victoria, has rented a cottage on Langford Lake.

Mrs. H. A. Hincks left on Wednesday

for Orcas Island, where she will spend a holiday for a few days.

Fashion Fancies

By Marie Belmont

The same subtle difference that distinguishes the chic frock from the less attractive model is manifested in the lingerie of today. Just ordinary "under things" long ago went the way of corsets and bustles, and now discriminating women give as much thought to the selection of exquisite lingerie as she does to the choice of the costumes of which it is an important part. Georgette in delicate shell pink makes this exquisite nightgown. The deep yoke is made of tiny hand-made flowers of silk cord with a closely shirred inset of the georgette.

A graceful fullness is imparted to the gown by the rows of shirring beneath the yoke.

Sidney

Miss Elsie Ford, who has been spending the month of August as the guest of the Misses Dorothy and Nesta Carter, East Road, has returned to her home in Kerrisdale.

Mrs. H. L. Ricketts has returned to her home at Bazar Bay, after spending several weeks' holiday visiting her sister in Vancouver.

Mr. and Mrs. Bert Readings have returned home after a short holiday visiting friends in Vancouver.

Mrs. George McLean, East Road, has returned home after spending a day or two at Shawigan. She was accompanied home by Master Fred McLean, who has been spending the past week visiting there.

Cowichan Lake

Gordon and James McKenzie, of Vancouver, are visiting their aunt, Mrs. T. Sullivan, Lake Road.

Mrs. Robert Evans and family have returned home from their vacation spent at Saltair, and with Mr. Evans spent the week-end in Victoria.

Mr. Jenks, of Hillcrest Camp, is making good recovery at the King Daughters' Hospital, Duncan, where he recently underwent an operation.

Mr. Beasley had the misfortune to crush a finger of his left hand while working on the engine at Mayo Camp.

Mr. and Mrs. T. H. S. Horsfall are in Victoria for a few days.

Somenos

Miss Jean Philpot left on Wednesday to spend several weeks on the Mainland.

Mr. and Mrs. C. Fairall and their three children, Gladys, Hazel, and Charlie, of Esquimalt Road, Victoria, were the week-end guests of Mr. and Mrs. T. W. Woods.

Mr. and Mrs. Will Stevens and Miss Lillian Stevens, of Vancouver, are visiting Mrs. Britton, Mr. Stevens' sister.

Shirley

The following were among the visitors to Muir Creek and Shirley for the week-end: Mr. and Mrs. Newman and sons, the Misses P. and M. Newman of Victoria, Mrs. A. Nelson of Victoria, Miss L. Hardy of Kamloops, Mrs. W. J. Allen, Messrs. J. R. and E. Allen, Mr. and Mrs. H. G. Painter and family, Mr. and Mrs. J. Donaldson and family, and Miss Evelyn Ross, all of Victoria.

Mr. and Mrs. Clark and son, of Gordon Head, Mr. A. Campbell, Sooke, and Mrs. Smith, of Glasgow, Scotland, were visitors to Shirley and Jordan River a few days ago. Mrs. Smith, accompanied by her daughter, is at present staying with Mr. and Mrs. Campbell, at "Argyll," Sooke.

Mrs. H. J. Kirk met with a very painful accident last week, having stumbled over a step and severely wrenched her ankle, necessitating being laid up for some time.

Mr. Andrew Davidson, of Otter Point, who has been working at Milligan's Camp here, was unfortunately enough to cut himself with an axe which he was using, last Saturday afternoon, almost severing some of his toes. He was immediately taken to Victoria to receive medical attention, but will not be able to walk for awhile.

Sooke

Guests at Whiffen Spit Auto Camp during the week were as follows: Miss H. Unwin and Miss Emily Coles, Victoria; Mrs. H. S. Clegg and Miss Clegg, Ladner, B.C.; Mr. and Mrs. A. M. Groke, Spokane; Rev. A. B. Smith and Mrs. Smith, Bellingham; Mr. and Mrs. H. V. Roche, Pullman, Wash.; Miss Ozard and nephew, Mr. and Mrs. Swanson, and the Misses Woolridge, Victoria.

Miss W. Tervo, Mr. A. Fraser and Mr. G. Waddington are guests at the Mugford Inn.

Miss A. Grace Throu, who has returned from Duncan, where she has been the guest of Mrs. R. Sanderson.

Port Alberni

The votes for Carnival Princess are coming in slowly, with Francis Strain, Verna Proctor and Virginia Hanna leading. The final count will be on Saturday.

Mrs. H. Mair is in Vancouver for a few days.

Mrs. Arnold Grieve, and son, of Courtenay, are visiting Mr. and Mrs. G. Piercy.

Women's Institutes

COLWOOD

Organized by the Colwood Women's Institute, a most delightful time was spent at the Colwood Hall on Monday evening last. There was a large gathering, including residents of the surrounding districts.

Major T. Godfrey acted as chairman, and a short musical program was continued by the following ladies: Pianoforte solo, Miss E. Smith (Laxton); violin selection, Mrs. Pollock, accompanied by Miss E. Smith; and Miss Laura White, who lighted the audience with her vocal selection, being accompanied by Miss Porter.

The presentation of the medal donated by the Women's Institute to John Munro of the local school, who obtained highest marks in the High School entrance examination, was made by Miss M. Kelly Mrs. S. Goucher, on behalf of the school board, thanked the Women's Institute for the donation of the medal, and said she deemed it a great incentive for the pupils in future years.

Mr. John Southwell, a member of the Optimists' Club, then spoke with regret of the departure of Miss C. Godfrey, president of the club, and Miss M. Hopwood, a valued member, who are leaving to take up positions as certificated teachers. The young ladies were then called to the platform and presented with beautiful bouquets of chrysanthemums by Joan Godfrey and Lynn Piercy, who drew a decorated cart holding a large paper flower filled with gifts from the assembly, the different articles to be opened on their journey.

Although greatly surprised, both

Protect Your Child From the Unseen Enemy—Eye- strain

Children have little means of com-
paring their vision with standard
vision. They have no means what-
ever of knowing whether their eyes
are right. It is your duty to see
that they start the term in such a
condition that they carry on the
work which is set out for them
without undue strain or effort.
We are fully and modernly
equipped for accurate examinations
of the eyes.
Glasses supplied when needed at a
very reasonable price.

Knees Doomed; Waistline and Hips Returning

PARIS, Aug. 31.—Knees are go-
ing into eclipse next Winter. Waist-
lines will be worn and hips have
been reinstated.
This bulletin from the sanctum
of the dressmakers, where the fash-
ions are being shown to buyers
from foreign countries may have
an immediate effect on the white

bread and pastry consumption of
the world.
If women follow Paris, and they
have done so for centuries, curves
will be worn again without apology.
Bread and potatoes fit right in with
the Be-More-Feminine campaign,
which includes everything con-
nected with the fashion trade from
hair goods to jewelry.

Short hair is threatened, if not
actually doomed, by fashion
makers. Now that ruffles are back,
shingles, shins and trouser skirts
thing may happen in the world of
style.

Not all the important dressmaker
have shown their collections as yet.
Some of the leaders are still to
come. But even if well-known
houses contradict curves, the
buyers have seen and liked them
and placed many orders for clothes
which are fitted to the waistline.

Many of these models have cir-
cular skirts and nearly all of them
reach several inches below the knee.
They give back to women that old
familiar "fair sex" look, of which
lingeries, slims and trouser skirts
have robbed them. Even designers
who have not gone the whole way

toward curves and the new atho-
lete have edged away from mascu-
line styling.
The rediscovery of hips is the
most startling development of the
style changes. The reducing par-
lors and deluxe gymnasiums which
thrive in Paris, already are worried
by the threat to slenderness con-
tained in the new curved line.
Part of the back-to-femininity
move is the partial eclipse of sport
clothes for day long wear and the
reinstatement of afternoon dresses.
Johannesburg, South Africa, will
have a new municipal power plant.

Variety of Sports on Holiday Programme

Softball Championship Play-Offs, Cycle Meets and Rifle Shooting to Feature Athletic Competitions Next Monday—Events at Beacon Hill, Royal Athletic and Heals Range

A varied sports programme is being arranged for Labor Day, Monday, September 5, which will include softball, cycle races and rifle shooting. In the morning softball teams will clash at the Royal Athletic Park in the championship play-offs. At 3 o'clock the Victoria Cycling Club will hold a monster meet at the Royal Athletic Park at which three British Columbia titles will be at stake.

Members of the 16th Canadian Scottish Regiment will spend the greater part of the day at Heals Range, in the annual shoot of the company.

In the evening the Victoria Cycling Club will stage a Moody Cup race at Beacon Hill. In this event the riders circle the park fifteen times, making the length of the course fifteen miles.

MANY RIDERS ENTER
Twenty-eight riders have entered for the championship cycle meet which is being held at the Royal Athletic Park in the afternoon. Jim Davies, of Vancouver, is the holder of the Canadian title for the half and one-mile course and the one-mile B.C. championship, will be here for the meet. Bill Peden and Stan Jackson, rated as the leading local riders, should give a good account of themselves. Peden is the holder of the two-mile B.C. championship.

Victoria boasts of the best track on the Pacific Coast, and with a class of riders the fans should see new records made.

The programme of the cycle meet is as follows:

ONE-MILE NOVICE, quarter-mile open, half-mile handicap, boys under 14; half-mile B.C. championship, one-mile handicap, boys under 14; two-mile handicap, boys under 17 years, and five-mile B.C. championship.

RIFLE SHOOTING
The Canadian Scottish Rifle Association will hold its annual prize shoot at the Heals Range on Labor Day. Cars will leave the corner of Yates and Douglas Streets from 9 to 9:15 a.m.

Shooting will commence at 9:45 a.m. and will be followed by 500 and 600 yards.

The D.C.R.A. silver and bronze medals, and the B.C.R.A. silver and bronze medals will be awarded in order of merit to the marksmen making the highest aggregate scores at the three ranges. Marksmen will be divided into three classes, and cash prizes will be awarded for the best aggregate scores in each class.

As this will be the final spoon shoot for this season, a full turnout of members is expected.

WESTMINSTER TO BE SCENE OF CUP FINAL

Lacrosse Teams Will Battle for Possession of Mann Cup at Queen's Park Stadium

TROPHY IS NOW HELD BY TIGERS

Coveted Silverware Came to Coast in 1912—Salmonbellies Held Cup for Five Years

NEW WESTMINSTER, Aug. 31.—Finals for the Mann Cup, to be staged at Queen's Park Stadium during the Provincial Exhibition, between the Salmonbellies and an Eastern team are likely to prove some of the most thrilling struggles seen on the West Coast.

If their record for the present season is anything to be guided by, Western Ont. Lacrosse Club holders of the trophy, are the probable opponents.

Dan McKenzie, chairman of the sports committee, Royal Agricultural and Industrial Society, has received a letter from W. O. Graham, secretary of the Canadian Amateur Lacrosse Association, giving an idea of the Western team's prowess.

They have, the letter states, maintained a season without defeat. Only one drawn game was yielded, and the opposing team in this instance, St. Simons, Ont., was afterwards beaten.

TEAM WELL ORGANIZED
With two exceptions the Western boys have played together four consecutive seasons, and their manager, Eddie Powers, is confident they are a twenty-five per cent better aggregation than when they beat Winnipeg's "Tigers" to win the cup last year.

In the East Western has to tackle Argos, Winnipeg, the winners, to do battle with Edmonton, Alberta champions. Whichever team emerges will journey West to meet the provincial champions at Queen's Park. The opening game is September 8.

The Mann Cup has been the pinnacle of amateur lacrosse ambition for the past sixteen years. Donated by Sir Donald Mann, 1910, it has been the object of many a gruelling contest throughout the years. Young Conservatives, Toronto, were first winners, and they were followed the year after by St. Catharines, Ont.

CUP HELD BY TIGERS
In 1912 the trophy came to the Coast, where it remained until last year. Vancouver V. A. C. held it for the first three years. New Westminster next took a three-year trick. Coughlans, Vancouver, were

Contestants Getting Physical Examination

Above are shown views of the physical examination being given contestants into the second Wrigley \$50,000 marathon swim, which took place yesterday in Lake Ontario. At the left are shown Dr. M. M. Crawford, in charge of the examination; Miss Lee Foster, of Long Beach, Cal., who swam twelve miles in the Catalina Channel swim, first woman to finish in the Alexandra Day swim and the first woman to be examined; Dr. James W. Barton, chief medical referee; and a group of men, including Russell A. Bush, Washington, Oregon, aged twenty-two, weight 200 pounds, height six feet two inches, whose heart is being examined by Dr. Warren Snyder, well-known Toronto Varsity Rugby player. On the right are the oldest and youngest entrants, Charles Dennis Spivey, of Toronto, aged sixty, dock worker, and Arthur Compton, of Long Beach, Cal., aged fourteen, weight 178 pounds.

Babe Hits Homer, Getting Lead of Two Over Gehrig

NEW YORK, Aug. 31.—Babe Ruth connected for homer No. 43 today in the eighth inning of the New York-Red Sox melee off Pitcher Wever with none on base. The blow gave him a lead of two on Gehrig, who made a triple. Lazzeri corralled a pair of Ruthian wallopers for a total of eighteen.

custodians for 1918 and the following year the silver emblem of the gutted stick took a trip to Victoria, when the Foundation team came on top.

For the next five years New Westminster held unbroken sway, falling at last to the onslaught of Ocean Falls, who in turn yielded to the Tigers.

And now the fans are asking: Will the cup come back this year to decorate one or other of its old haunts, or has the Pacific Coast lost its grip?

Games will be played as follows: September 1—Winnipeg—(Total goals).

September 3—Winnipeg—(Total goals).

September 5—Edmonton—(Sudden death).

September 5—New Westminster—(Sudden death).

September 8—New Westminster—(Sudden death).

September 10—New Westminster—(Best two out of three).

September 12—New Westminster—(If necessary).

FOE REWARDS WITH \$92.55

Outsider Breezes Home at Head of Field in First Event at Brighouse, Paying Backers Handsomely

HONG KING WINS B.C. DERBY RACE

VANCOUVER, Aug. 31.—Carrying the heavy impost of 123 pounds, Hong King, three-year-old chestnut gelding, ridden by Deford, won the British Columbia Derby, feature of today's card at Brighouse Park.

Cyclonic came second, after leading all the way, being beaten by two and a half lengths in front of the Shepherd, which came third. The winner was favorite.

Another feature of the afternoon's racing was the win by Foe in the first when he paid \$92.55 straight, \$31.80 place and \$11.90 show.

THE RESULTS
First race—Claiming, purse \$500; three-year-olds and up; six furlongs.
Time, 1:10.
1. Foe \$92.55 \$31.80 \$11.90

RUGBY TEAM ORGANIZES

ABE LINDSAY, SENIOR COUNCILOR OF THE U.C.T. IS ELECTED PRESIDENT

Victoria Team Will Play Under Travelers in "Big Four" B.C. Canadian Rugby League

Senior Councilor Abe Lindsay, of the United Commercial Travelers, was elected president of the U.C.T. Canadian Rugby squad at an organization meeting held last night at the K. of C. Hall. Twenty of last year's players, in addition to a number of new faces, attended the meeting, which in itself was the spirit of enthusiasm. Other officers elected are: Business manager, Len Woodhouse; playing manager, Dick Wilson; coach, Ernie Cook; and secretary, Ernie Cook.

The team represents Victoria in the "Big Four" B. C. Canadian Rugby League and last year won the British Columbia title. The players will wear the U.C.T. colors, which are blue, white and gold.

All players are advised that practice will be held on Monday, September 5, at 5:30 p.m. at Central Park, and every evening following, with the exception of Saturday and Sunday. President Abe Lindsay assured the players of the full support of the United Commercial Travelers during the season.

The local squad will play its first game on October 1 against Vancouver, on the Mainland. Victorians will be given an opportunity of seeing the team in action here on October 8, when they oppose New Westminster at the Royal Athletic Park.

Winnipeg Racing
WINNIPEG, Aug. 31.—Results of today's racing here follow:

Your Most Valued Possession

Your Face

Keep it Young

This Place Reserved for Your Picture

In other words
What do You see
When You look in
the Mirror?

These Days, Too Many Men Look Older than They are

Does your mirror reflect the Freshness of Youth and will it continue to do so? Too many men disregard the fact that improper care of the face, including the shave with a dull unstoppered blade, brings prematurely the unnecessary marks of age.

THE STOPPED BLADE (SUPER KEEN) IS OF VITAL IMPORTANCE

Only in the Valet AutoStop Razor do you get the correct shave every day in the shortest space of time and with the most comfort—the shave that really helps to keep the face young. The same blade is used over and over—brought back in a moment to super keenness by its own stopping device which is built right into the razor itself. Less work—less expensive to your purse—less expensive to your face.

This Valuable Book is Yours WRITE TODAY for your copy

GUARANTEE
We are anxious that every use of a Valet AutoStop Razor be consistently effective. Should anything happen to your razor affecting its perfect service, just send it to us and we will replace it in a new-like condition without charge.

INDIAN RELICS PROVIDE PUZZLE

NOMADIC INSTINCTS AND GIFT
MAKING HABITS OBSTRUC-
TION TO INVESTIGATOR

Find Made on Old Ontario Camp-
ing Ground May Have Origin
on Pacific Coast

TORONTO, Aug. 31.—Visitors to exhibits of Indian relics in Canadian museums seldom realize the difficulties involved in the classification and cataloguing of such specimens. An immense amount of research work must be undertaken every time a new collection is acquired by a museum. Preparing these exhibits for the public eye may take a matter of months.

Trade carried on between the Indian tribes scattered over North America before the advent of the white man and the universal custom of making tribal gifts adds indistinctly to the task of the ethnologist. When stone or bone implements, arrowheads or hatchets, are found in a certain district, the layman may be pardoned for presuming that they were made by Indians of the tribe known to have inhabited that particular region. But the expert museum worker is not to be so easily satisfied. He knows

that the primitive tools of the red man were actively bartered from tribe to tribe; that hatchets found on the site of an Iroquois village in Ontario may have been made thousands of miles away by Indians of the Rocky Mountains or the Pacific Coast. They may have been traded from hand to hand and from tribe to tribe in exchange for furs or wampum until finally used by the native Iroquois. Or they may have formed part of a gift from one proud chieftain to another on some occasion when the fragrant smoke of the pipe of peace proclaimed a temporary armistice between blood-satiated braves.

While the tribes inhabiting Eastern Canada confined their migrations to regions within easy traveling distance of their central villages, the Indians of the western plains and mountains were essentially nomadic and wandered far and near in pursuit of game and scalps. For this reason relics of the western tribes are widely scattered across Canada and are to be seen in ethnological collections in all parts of the Dominion.

Hairpins and needles made of bone were evidently among the most common articles of barter, indicating that the Canadian woman of primitive times was as anxious for the latest innovation in adornment or household aid as is her sister of today. Bone pipes are also found, while chisels, adzes and axes made of stone are common.

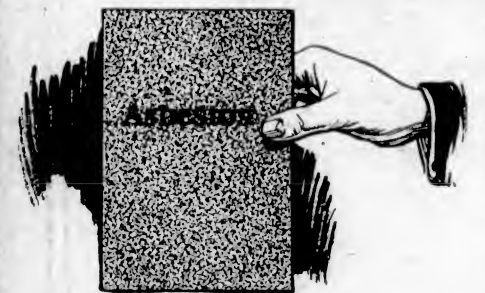

Of course, arrow heads abound. The product of expert craftsmanship, are included in the John H. Crouse collection recently acquired by the McCord Memorial Museum, Montreal. The specimens in this collection were found by Mr. Crouse and two other men in the neighborhood of Brantford, Ont. Most of the material is of Huron-Iroquois origin. Many fragments of pottery, showing crude attempts at design, are included in this collection.

One of the greatest handicaps to the classification of Indian relics is the scarcity of authoritative reference works on the Canadian Indians. The most reliable work on the subject and that most used by curators is the Canadian Handbook on Indians. This is a digest of the material in a volume compiled by Frederick Webb Hodge and issued by the American Bureau of Ethnology.

The skeleton of a lizard found in the rocks of Texas is believed to be 20,000,000 years old.

Late Canadian Flyer's Wrecked Plane

A former Canadian flyer, Arthur V. Rogers, Toronto, Ont., was killed at Los Angeles when his plane, Angel of Los Angeles, crashed to earth in a test flight. Rogers, who had a splendid record as an aviator attached to the British navy, was entered in the Dole Pacific flight contest and hopeful of success. As his plane got out of control, Rogers jumped from it, but his parachute failed to open. He crashed to earth and was instantly killed close to the spot where his \$15,000 specially-built plane was shattered to pieces. The photo shows the wreckage of the plane.

SHIRLEY The Girl Who Leaped Into Life

By NANCY BARR MAVITY

CHAPTER XL

Shirley, for whom dressing was usually a swift and automatic procedure, stood in front of her chiffonier with a hair brush held idly in her hand. She stared into the mirror and was surprised to recognize her face as familiar. She ought to look completely different—she felt different. Why, there was a whole new Shirley behind that accustomed face! It ought to shine through; nobody ought to be able to recognize her at all. It did shine through a little, in the almost startled happiness of her eyes, the half smile on her lips.

"Speed up, Shirley; the toast's getting cold!" Edith voice from the next room brought her momentarily back to earth.

"Coming—just a minute," Shirley answered, but she continued to linger. She began to hum softly, then forgot to hum, in the middle of a bar, and fell into musing. How silly, how dangerously silly she had been to spend a night, long ago it seemed, in wondering how you could be sure about love. You didn't have to wonder about it; you couldn't! Why it was the surest thing in the world. Everything else was unreal against that dazzling certainty.

When she emerged finally into the outer room, Edith was already putting on her hat.

"I'm sorry dear; I'm afraid I can't wait," Edith said. "I wanted to go off a few minutes early this morning."

Shirley absently sprinkled sugar on her grapefruit—and then remembered, too late, that she never took sugar on grapefruit.

Edith leaned over her chair from behind and rested both hands on Shirley's shoulders.

"Is anything the matter? Aren't you feeling well? I never knew you to be so slow."

"Well? Of course I'm well. Never better."

"You'll have to fly if you're not going to be late to the office, then. Don't bother to clear the dishes. We'll do 'em tonight." Shirley was glad when the door of the apartment closed. The presence, even of Edith, was an interruption. She wanted to be quite alone with that sharp, stinging joy that raced through her veins. Still, Edith was right—she really must hurry.

She swallowed a cup of coffee, and, with a startled glance at her watch, stepped quickly out of the apartment house door and took the steps at a run. On the sidewalk she was hailed by the somewhat seedy grey figure of an unknown man who stood directly in front of her.

"Are you Miss Shirley Hardin?" he asked.

"Yes. What is it?" Shirley spoke sharply. She would just make it on time to the office if she caught the next car.

The man, however, did not detain her even with an answer to her question. He thrust a folded paper into her hands and disappeared as suddenly as he had come.

"Well, what on earth—" Shirley unfolded the paper, walking toward the car line as she did so. Then she stopped short. The car clanged its way past the corner, but she did not hear it.

"In the Superior Court of the State of California," her eyes flashed across the printed words to the typewritten names below.

"Adela Cranshaw, Plaintiff,

vs.
Justin Cranshaw, Defendant."

"But what have I?"

More printed capitals: "The People of California Send Greeting To"—and then her own name, typewritten. Beyond it the printed word "Defendant" had been struck out and a word typed above it:—"Correspondent."

Shirley had no sense of reading the words in order. They seemed to be flashed upon her mind as on a screen. Below, several lines of printing were only a blur, emerging with sudden clearness again in the last short paragraph: "The said action is brought to obtain a judgment and decree of this court dissolving the bonds of matrimony now existing between plaintiff and defendant, on the ground of defendant's—" and another typewritten word, a word that wasn't said, that one never read in print even, except in the remote distance of the Bible—a searing, horrible word.

Hurrying pedestrians jostled Shirley as she stood rigid in the middle of the sidewalk. She saved way without even knowing that she had been pushed, and leaned

ESTIMATES FOR APPLE-CROP CUT

Ontario and Nova Scotia Suffer
Heavily From Aphid—R.C. Con-
ditions Good

OTTAWA, Aug. 31.—Early prospects for a heavy commercial apple crop have been materially reduced in the Eastern fruit provinces owing to continued unfavorable weather conditions which have caused the rapid development of scab and insect injuries, according to a crop report issued by the Dominion Fruit Branch. On the other hand, conditions have been more favorable in British Columbia since the middle of July, when the weather turned warm, and having sufficient irrigation water the early estimate is expected to be maintained. Although the crop in Nova Scotia, Quebec and Ontario has been reduced, it still shows an increase over last year, while British Columbia is about twenty per cent less than the heavy crop of 1926. Present prospects indicate a commercial crop of 190.5 per cent, or 2,999,000 barrels, compared with 2,964,230 barrels in 1926, and ninety per cent of a five year average of 3,327,600 barrels. The crop is distributed as follows: British Columbia, 1,049,000 barrels; Ontario, 650,000; Quebec, 120,000; New Brunswick, 30,000; and Nova Scotia, 1,150,000.

TOO MUCH RAIN

Excessive moisture in July throughout Ontario resulted in aphid damage to many varieties of apples, accompanied by scab and side-worm injury. These conditions have caused the commercial estimate to be reduced to 650,000 barrels, compared with 598,700 barrels in 1926. Indications are for the proportion of No. 1 grade fruit to be the lowest in years. In Western Ontario the crop is estimated at 102 per cent, or 383,500 barrels, as compared with 377,400 barrels last year, while the Eastern Ontario crop is placed at 120 per cent, or 264,500 barrels, as against 221,290 barrels in 1926.

Weather conditions in Nova Scotia during July have been little short of disastrous to volume and grade, although contributing to good average size. Excessive rains were general and inimical to full benefit of spraying, and warm "muggy" weather has been unduly friendly to aphid and spot. Where spraying was ample and timely orchards are fairly free of spot, but aphid has done damage in all orchards. The combination of conditions is held responsible for the continued drop and further reduction in crop expectancy.

GOOD IN BRITISH COLUMBIA

In British Columbia hot, dry weather has prevailed since July 15, which had the tendency to bring along all crops in good shape after the long wet, cool spring. The irrigated district report plenty of water available for all requirements. The committee of direction, appointed by the Provincial Government to regulate distribution, seems to be functioning well.

From present indications there is no reason to change the early estimate of 3,140,000 boxes of apples, which is eighty per cent of 1926, when 3,937,000 boxes were shipped. The crop is about 1,000 cars short of last year.

The United States commercial crop is now estimated at 24,831,000 barrels, as compared with 39,411,000 barrels last year, and a five-year average of 33,710,000 barrels.

In England only a fair crop of

domestic apples is reported, but on the Continent prospects are a little better than a year ago.

He—You used to say there was something about me you liked.
She—Yes; but you've spent it all now.

SMALL SHOES CAUSE DEATH
That shoes too small for her feet were the cause of the death of the beautiful, and popular Countess Benadicta Maria Fedrigelli, of Rome, is the opinion of doctors. The countess, who was only twenty-four, had a small and attractive foot, but persisted in wearing shoes that were still smaller. An abrasion appeared on a toe, blood poisoning set in soon afterward, and she died within forty-eight hours. "A victim to her own vanity," is her epitaph, according to reports.

MAINLANDERS IN HARD POLO GAME

Defeat Cochrane 6-4 in Fast Match in Western Canada a Championship Series

LADIES' GAME ENDS IN ONE-ALL DRAW

CALGARY, Aug. 31.—Polo results: Bobolinks, 1; Chickadees, 1; Miss Adams, 3; Miss Hutton, 4; Miss Adkins (captain). Bobolinks—1, Miss MacNeill; 2, Miss Severy; 3, Miss Johnston; 4, Bun Dewdney (captain).

Following the thrilling game between Vancouver and Cochrane, the Calgary No. 1 team took the field against High River and when the smoke of battle had cleared away, No. 1 team had gone down to defeat 7-2.

In the first chukker, McHugh, of High River, scored 1. In the second, Limoge, of High River, scored 1, and then Freeman followed with another score for his team. Calgary's two scores were made in the fourth chukker by Chambers and Crooks. Freeman scored for High River again in the fifth and there was no score in the sixth.

High River—1, Limoge; 2, McHugh; 3, Freeman; 4, F. McHugh. Calgary—1, Yonath; 2, Crooks; 3, Major Saunders; 4, Chambers.

Vancouver and Cochrane polo teams furnished any amount of excitement for the lovers of fleet-footed ponies and daring riders in Wednesday's matches in the Western Canada championship polo tournament, the coast team winning a hard-fought battle, six to four, but not without the riders from the west belt striving their best. The fast team from Cochrane kept the visitors at their top speed every moment but could not overcome the advantage of the third chukker.

In the second, Rose scored two for Cochrane. Norman Drysdale, the third, scored three for Vancouver, and Ward, of Vancouver, followed with one. A Kerfoot scored one for Cochrane in the fourth and scored another in the fifth. Wilmut scored one for Vancouver in the sixth.

Vancouver team—1, Drysdale; 2, T. Wilmut; 3, F. Sweeney; 4, F. Ward.

Cochrane—1, Rose; 2, Johnson; 3, A. Kerfoot; 4, D. Kerfoot.

ENDS IN A DRAW

The first match of the afternoon ended in a draw between the ladies' teams—the Chickadees and Bobolinks.

Soccer Clubs Refuse B.C.F.A. Constitution

Resolved: That this meeting refuse to accept the constitution adopted by the B.C.F.A. at a meeting in Nanaimo, August 6, 1927. This was the bombshell that the Lower Mainland Football Association dropped into the ranks of British Columbia soccer on Wednesday night at their deferred reorganization meeting.

Immediately following the meeting of the Lower Mainland Football Association, John Muter, president of the B.C.F.A., announced that he would call, within the next two days, a meeting of all clubs in the association affiliated with the B.C.F.A.

According to Mr. Muter, Wednesday night's meeting was unconstitutional as there were several clubs present not affiliated with the B.C.F.A.

YACHT RACING

PROVIDENCE, R.I., Aug. 31.—The battle for the championship of the International Star Class Yacht Association gradually is narrowing down to a contest between five boats, any one of which is a potential winner, although Colleen, through Bradford's consistent sailing, is the favorite.

Mackerel, the Chesapeake Bay entry, won the third race of the series here this afternoon.

SANGOR IS WINNER

PORTLAND, Ore., Aug. 31.—Joey Sangor, Milwaukee batter, won a ten-round decision here last night from Young Nationalista, Los Angeles fighter. They weighed 160 pounds.

In a six-round semi-windup, Joe Medill, Chicago, won a decision from Charles O'Leary, of Seattle. They fought at 135 pounds.

ORGANIZATION MEETING

An organization meeting of Renzie & Taylor's Wednesday football club will be held on Saturday, September 3, at 8:30 p.m., at the residence of Jack Maxwell, 2527 Astor Street. All last year's players and any others interested are asked to attend.

TURFMAN DIES

SARATOGA SPRINGS, Aug. 31.—William L. Walker, owner of the Lillane Stable and well-known turfman, died here today.

Excursions to ERIN POPULAR

Cunard Line Announces December Sailings to Queenstown—Trips Personally Conducted

The Cunard Line, in accordance with previously conducted Christmas excursions, has completed arrangements for December sailings to Queenstown for the convenience of passengers intending to spend Christmas with relatives and friends in the land of Erin.

The Andania, oil-burner steamer usually employed in the Canadian trade, will carry a conducted excursion under the escort of Mr. James Burns, the veteran Irish traveler of the Cunard Line in New England. Mr. Burns will sail in this steamer, accompanied by Mrs. Burns, who will look after the welfare of female passengers who will take part in the excursion.

The Andania will leave New York on December 10, and Boston December 11.

Mr. James Keating, who is well known in Irish circles, and is now attached to the New York office of the Cunard Line, will conduct another excursion in the new oil-burner Samaria, December 13. The Samaria will reach Queenstown in time for the travelers to join their friends for Christmas.

Mr. H. P. Borer, general passenger manager of the Cunard Line, says: "Conducted Irish excursions are becoming quite a feature. Every year more and more people avail themselves of the comforts of traveling under escort of an experienced traveler. Our conductors are on the ships to help travelers in every possible manner and they do it. Even the woman traveling alone will find herself in mighty good hands."

GERMAN MERCHANT FLEET INCREASES

The German merchant fleet was increased during the first half of 1927 by purchase from abroad of fifty-seven vessels (thirty-one steamers, three motorships, twenty-three sailers), of 104,784 tons gross. There were built in Germany during the same period, thirty vessels, sixteen steamers, ten motor vessels, four sailers, of 76,632 tons gross, and built abroad four vessels (one steamer, two sailers, one sea-going lighter), of 8,000 tons gross; a total of ninety-one vessels, of 182,226 tons gross.

On the other hand, fifty vessels (thirty-one steamers, seven motorships and twelve lighters), of 35,700 tons gross, were sold abroad; seven steamers, of 8,603 tons gross, and five sailers, of 712 tons gross, were lost, and five vessels, of 5,281 tons gross, were broken up; a total of sixty-seven vessels, of 50,297 tons gross. This corresponds to a net increase of twenty-four vessels, of 131,929 tons gross. German owners are selling their small boats, so that the average size of German vessels is steadily increasing.

Americans Eat Two And a Half Gallons Of Ice Cream a Year

WASHINGTON, D.C., Aug. 31.—Ice cream production in the United States has increased 240 per cent in sixteen years, rising from 86,450,000 gallons in 1910 to 324,665,000 gallons in 1926. Although a small branch of the dairy industry, utilizing only about 3.8 per cent of all milk produced, ice cream manufacture employs more than 50,000 persons and pays out in salaries more than \$75,000,000 a year.

BLACKHEADS

Blackheads are equally by a simple method that just dissolves them. Get two ounces of persing powder from our druggist, mix with a hot, wet cloth brush over the blackheads and you will wonder where they have gone.

formerly an employee of Winnipeg's engineering department. Colonel Minchin served in the department for two or three years, leaving here at the outbreak of the war for the front.

While in Winnipeg he organized a little flying club. It is recalled that on one occasion he and his friends rigged up a gliding machine and attempted a flight to Sturgeon Creek. The machine was a crude affair, however, and after a jump or two it came down, never to rise again.

WEATHER CONDITIONS

ST. JOHN'S, Nfld., Aug. 31.—Much improved weather conditions along the entire Newfoundland coast were reported this city at 9 o'clock, Eastern daylight time tonight, after a day of lowering clouds, rain and some fog.

NEW YORK, Aug. 31.—Low barometric pressure and a stormy area off the coast of Ireland extending for several hundred miles was reported by the local weather bureau today as one of the difficulties which the Fokker monoplane, St. Raphael, with Captain Hamilton, Colonel Minchin and Princess Lowenstein Wertheim would have to surmount on its hop from England to Ottawa.

If successfully passed, the weather bureau said, a wide area in midatlantic cloudy weather and showers would be the next test of the plane's capabilities. Off the Newfoundland coast a heavy fog was reported.

The entire distance from the western edge of the storm area to the North American coast would have to be traversed, according to the bureau, against head winds which would materially lessen the plane's speed.

ROUTE UP ST. LAWRENCE

OTTAWA, Aug. 31.—According to a cablegram received by the Air Force, the plane, St. Raphael, carrying Hamilton, Minchin and Princess Lowenstein Wertheim, will leave London tomorrow morning for the landing of the plane, Royal Canadian Mounted Police will go on duty tomorrow noon to police the grounds. One, and possibly two, planes of the Royal Canadian Air Force will be held in readiness to go out and escort the transatlantic flyers to the city.

Landing Field

Lindbergh Field, so named following the arrival there of Captain Charles Lindbergh, has been prepared for the landing of the plane, Royal Canadian Mounted Police will go on duty tomorrow noon to police the grounds. One, and possibly two, planes of the Royal Canadian Air Force will be held in readiness to go out and escort the transatlantic flyers to the city.

Definite plans for the welcome have not been made, pending further news of the progress of the flight—but should the aviators make the journey successfully, official Ottawa will be on hand to greet them. The Air Force officers in charge of arrangements have estimated that provided fair weather is encountered, the plane should arrive here at 4 o'clock tomorrow afternoon.

Plans have been made to flood the landing field with lights should the plane arrive after dark.

Martin Harvey to Return This Winter

Sir John Martin-Harvey will visit Canada early in the New Year, opening his transatlantic tour at Montreal on January 2. He will bring with him his latest success, Rafael Sabatini's "Scaramouche," in which he appeared this summer at the Garrick Theatre, London, and "The Lion's Mail." The latter has proved itself one of the most popular items in his repertoire.

Irish Suspect Freed Then Arrested Again

DUBLIN, Aug. 31.—Sean McBride, of Clonake, County Dublin, who was arrested recently on suspicion of being connected with the conspiracy resulting in the murder of Kevin O'Higgins, vice-president of the executive council of the Irish Free State, was discharged by the Dublin police court today.

McBride was rearrested immediately, however, under the new Public Safety Act, on a general charge of conspiracy to murder. McBride is the son of Maude Gonne McBride, widely-known Republican. His father, Major McBride, was executed during the Easter rebellion of 1916.

Logger Drowns

PORT HANEY, B.C., Aug. 31.—M. Chisholm, Burnsby, an employee of the Abernethy Loughheed Logging Company, was drowned in Alouette Lake when he slipped on a log of a boom on which he was working.

PIONEER SPORTING EDITOR IS DEAD

TORONTO, Sept. 1.—The death occurred here early today of H. J. B. Good, aged seventy-eight, pioneer sporting editor of Canada. He was the originator of the sporting page, having introduced the idea of confining sports news to one page instead of having this class of news spread through the paper, as had hitherto been done prior to Mr. Good's suggestion while employed on The Toronto Mail.

In 1910 Mr. Good acted in the capacity of manager of the Dominion Exhibition at Saint John, N.B., and in 1911 handled the Vancouver Exhibition. He was born at Birmingham, England, and migrated to Canada in 1869.

Juvenile Court Judge Addressing Club Here

Judge Helen Gregory MacGill, of the Juvenile Court, Vancouver, will be the speaker at the Women's Canadian Club meeting to be held in the Empress Hotel on Tuesday next, September 6, at 2:45. Mrs. MacGill will speak on the subject of social legislation and its administration in British Columbia. Miss Rita Orlin will be the first speaker, and Mrs. Peter McNaughton will occupy the chair in the absence of Miss Agnew, the president, in the East.

Locomotive Engineer Suffers Loss of Arm

KAMLOOPS, B.C., Aug. 31.—"Jack" Patterson, C.N.R. passenger engineer, lost his right hand in an accident here while he was oiling the engine preparatory to departing for Vancouver.

Just as the fireman had obeyed an order to "give her half a turn forward," Mr. Patterson reached for his torch, which he had dropped under the engine, and a wheel caught his sleeve and cut away his hand.

Mr. Patterson grasped the veins of his torched arm with the fingers of his left hand until a tourniquet was applied. He was taken to the Royal Inland Hospital and is reported to be doing well.

Grain Yield Exceptionally High in Value

From the district of Gordon Head comes a report of an exceedingly heavy yield of wheat on the farm of Mr. W. E. Hill, of the Gordon Head Road. From a five-and-a-half-acre field of Fall wheat which went sixty-three pounds to the bushel, Mr. Hill threshed 370 bushels of grain. As a further testimonial to the fertility of the soil, the information is given that this area the crop of wheat cut this season was the third consecutive one without change of fertilizer.

The threshing was done by Messrs. A. J. Mycock and Harry Brewster.

PRIDE OF DETROIT MEETS HEAD WINDS

CONSTANTINOPLE, Aug. 31.—The Pride of Detroit, with the transatlantic flyers, William S. Brock and Edward F. Schlee aboard, made a lonely landing at the airport about fifteen miles west of Stamboul at 11:45 o'clock this morning.

The Pride of Detroit sailed away from Belgrade about 4:30 o'clock, and covered the distance of some 600 miles seaward slowly on account of head winds. They hope to continue their journey at dawn tomorrow morning.

May Start Today

DESSAU, Germany, Aug. 31.—Remaining on the runway tonight the Junkers transatlantic airplane Bremen, which was rolled out about 5 o'clock in the afternoon, may possibly take the air for her flight to America tomorrow. If weather reports are at all favorable, work of fueling the Bremen was begun, but it soon was realized that the start could not be made this evening as was intended.

"Weather conditions have again nullified for the moment our intentions to hop off," Hermann Koehn, associate pilot of the Bremen, said to the Associated Press correspondent as he returned to his hotel from the airport.

Announcing the Illustrious NEW CHRYSLER 72

A Statement from Walter P. Chrysler:

In announcing the Illustrious New Chrysler "72" we are confident that our latest product is as great an advance over today's fine cars as was the famous "70" over the best of four years ago.

The New "72" is ultra modern—again setting new standards, establishing new results for the industry to follow.

The New Chrysler "72"—with the Great, New "62," the New "52," and the magnificent, Imperial "80"—are Chrysler's covenant of faith with the public which has so generously demonstrated its faith in us.

W.P. Chrysler

\$1930

to \$2270, f.o.b. Windsor, Ont. including standard factory equipment (freight and taxes extra)

Longer, Roomier, Faster, Handsomer

The Illustrious New Chrysler "72"—longer, roomier, faster and handsomer—but that tells only a touch of the "72" story.

For the first time, in a car costing less than \$2500, the New "72" gives an engine of 75 horsepower, with counterweighted 7-bearing crankshaft and rubber engine mountings, to wipe out every last vestige of vibration.

It gives you speed of 72 and more miles an hour, pick-up of 5 to 25 miles in 7 seconds, hill-climbing ability that sweeps you up even mountain grades at constant acceleration.

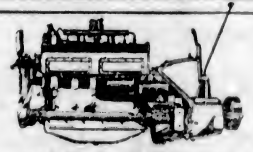

It gives you spring ends anchored in blocks of live rubber, which with special Chrysler spring suspension and shock absorbers, result in riding smoothness hitherto known only to most expensive cars.

ing smoothness hitherto known only to most expensive cars.

It gives you longer, more beautiful bodies, tastefully appointed, luxuriously roomy, and fully equipped with saddle-spring seat-cushions to provide the utmost in comfort.

It gives you a new low-slung grace, flowing lines, entrancing colors, which are an irresistible invitation to sit behind the wheel and feel for yourself the power of its very appearance suggests.

Test it to your satisfaction in every conceivable manner. Only then can you appreciate just how much wider is the gap which the Chrysler "72" has placed between itself and all others in this class.

"Red-Head" Sets Chrysler

Performance Farther Ahead. With the "Red-Head" engine, previous Chrysler ratios of fuel compression—which have always been higher than those for ordinary engines—are again increased.

The compressed gas volume in the cylinder now expands six times (as against four times in ordinary engines) before it is exhausted, adding immense vitality and brilliance in speed, acceleration and hill-climbing ability.

The "Red-Head" is standard on the roadsters of the Illustrious New "72," the Great, New "62," the New Chrysler "52" and the Sport Roadster of the Imperial "80." It is available at small extra cost for all other body models of these lines as well as for earlier Chrysler models now in the hands of owners.

Illustrations New Chrysler "72" prices—Roadster (with rumble seat), \$1930; 2-passenger Coupe (with rumble seat), \$1995; Coupe (4-passenger), \$2060; Sedan, 4-door (close-coupled), \$2060.

Royal Sedan, \$2060; Convertible Coupe (with rumble seat), \$2265; Crown Sedan, \$2270. All prices f.o.b. Windsor, Ontario, including standard factory equipment (freight and taxes extra).

VARIETY

PICKADILLY IS

BADLY TORN UP

Repairs and Improvements to Fa-
mous Thoroughfare Are on
Wholesale ScaleLONDON, Aug. 31.—The Piccadilly
mile has seen many changes since
it formed part of the "Way of
Reading," when in 1612 Master
Robert Baker, Strand tailor and re-
puted maker of Pickadilly—a type
of ruff patronized by the gallants
of the day—built the first of its
houses near the windmill at the top
of the Haymarket. One by one the
ancient landmarks have risen and
disappeared. The mansions of the
great families that began after the
Restoration to buy up the fields
along its site have given way to
hotels and shops and clubs, and the
Tyburn, instead of flowing through
open country from the heights of
Hampstead to the Thames, now
burrows ingloriously under the dip
in the roadway and across the Green
Park to flush a sewer. But three
centuries of growth and decay and
restoration have left, or rather have
made, Piccadilly what it has long
been—one of the most famous boulevards
in Europe.It is not surprising that the own-
ers of the commercial and private
premises along its frontage view
with dismay the prospect of the
roadway being closed to traffic for
a period which may or may not be
three months. They ought indeed
by this time to be well used to the
experience. A lithograph of the
early forties of the last century pre-
sents the now familiar picture of its
eastern end blocked by excavations
and barriers and piles of capacious
drain-pipes; and partial roadworks
of the same kind have since become
almost as frequent as rain in July.
But never before has Piccadilly
been "up" on the same wholesale
scale as that to which Londoners
must now look forward.The Postmaster-General, the Met-
ropolitan Water Board, and three
electric and gas supply companies
all have big arrears of subterranean
work which must be put in hand
sooner or later. By carrying it out
simultaneously with the reconstruction
of the surface they will be able
to execute it with the minimum loss
of time and the least possible dis-
turbance. According to an official
announcement, every effort is to be
made, by close co-operation between
the different contractors, to com-
plete the reconstruction in three
months.

IN RED RIVER FILMAs Texas Ranger, Victim Phantom
Falcon, Steer Does Stuff
at ColumbiaTom Mix has given the screen
another sensational crashing finish
to his Fox Films drama, "The Out-
laws of Red River," showing today at
the Columbia Theatre.Mix has the role of a Texas ranger
known as the Phantom Falcon, who
is on the trail of a gang of despera-
dos who years before raided an
emigrant wagon, killed his foster
parents and carried away his foster
sister. To enable him to get the
evidence against the gang, he pre-
tends to be a desperado and holds up
a stage just before the Red River
gang were ready to loot it. He leads
the gang wild chase and eludes
them. After he hides the treasure
he allows himself to be captured by
the bandits and tells them that he
would like to join their gang as there
is not enough business for two gangs
to operate separately.Mix is taken to the gang's stockade
and introduced to the leader. There
he finds his foster sister. He recalls
memories that make him remember
him and they plan to escape, but the
plan is overheard and frustrated.
Tom gets away and returns with the
Texas Rangers in an armoured
coach. They drag this to the top of
the hill above the bandits' jail and
slim in. Then they crash down the
hill into the stockade just in time to
save the girl from the second in
command, who has slain the aged
leader.CAPITOL Norman Kelly, famous
THEATRE film star, who shares
leading honors with Irene Rich
and Claire Windsor in the Universal pro-
duction, "The Claw," which plays at
the Capitol Theatre today, admits
that his entry into the movies was
just one of those things—unexpected
and unplanned. Kelly, as a youth,
never considered the possibility of
becoming an actor. Born in New
York City of wealthy parents, Kelly
attended military school and college
in his native State and upon gradu-
ation prepared to take up law as his
life work. Before starting on his
daily grind, he decided to visit Cali-
fornia to look up a few old school
chums. On his first day in Holly-
wood he became acquainted with
Jack Hoxie, famous Western star.
Hoxie invited Kelly to the studio,
where the Easterner gave an en-
thralling exhibition of skillful and
daring horsemanship that resulted in
his engagement as a movie cowpuncher.On the stage are George Danguray
and his Scotch Highland Flashes, in
a Scottish song, dance and jazz
revue; Roberta Balcom, the pretty
dancer, in her latest dance hits,
and Ramona Rambert, soprano solo-
ist, in song selections. The concert
orchestra will also be featured in
conjunction with the picture attrac-
tions.COLISEUM One of the most re-
markable scenes ever
staged in pictures is
found in "The Game of Life," the
immortal charge of the Light Bri-
gade, now showing at the Coliseum
Theatre. We see the 600 light
cavalrymen charging into the
mouths of Russian cannon at Bala-
klava."Right through the line they broke,
Cossack and Russian
Reeled from the sabre stroke."The famous charge was staged by
permission of his Majesty King
George V, who loaned the producer
of "The Game of Life," 600 light
cavalrymen from the very same regi-
ment which performed the glorious
exploit on the battlefield of the
Crimea sixty-seven years ago.Zip, the mystery man, is at the
Coliseum Theatre all this week. Born
into the world with the great hand-Two children in an enchanted
garden, listening to the music of a
violin weaving its magic into their
hearts and binding them together
forever, this is the memory that a
boy and girl cherish through long
years until they found one another
again. Gene Stratton-Porter created
this beautiful theme as her last and
greatest story, "The Magic Garden,"
and it may be seen on the screen as
an F. B. O. release at the Playhouse
Theatre next Monday, when it
begins a six-day run. The picture
opens when the boy and girl meet in
a place of enchanting loveliness and
there in the glorious garden, they
pledge their love. However, fate de-
crees that they must part, but all
through the years that follow, their
inspiration is the remembrance of
those few hours and the hope that
they may be reunited again. The
girl's part is played by Margaret
Morris, who invests the role with an
eternal quality, while the boy's
screen self is interpreted by Ray-
mond Keane.

WEIGHTS TEST AIRPLANE

By the use of a stationary frame
equipped with weights and gauges,
a technical university in Dresden tests
the strength of an airplane motor
and the stability of the craft. The
device is so adjusted that when the
propeller exerts a horizontal pull it
lifts a weight at the rear. The
frame is rigged to show the approxi-
mate reaction of an airplane in
flight during the test."Baptism," said the Scot to the
village chemist, "for a packet of
sulphur." Why, man, I can get it
for fourpence in Glasgow."Aye," said the chemist. "An' ye
can gang to another place where ye
can get as much sulphur as ye want
for naething."

HEALTH UNDERWEARFarm Women of
Iowa Enjoying
A Real HolidayTIPTON, Ia., Aug. 31.—Cedar
County farm women are taking a
vacation. After these many years
of getting up with the sun for an
endless day of dreary duties, the
women are taking life easy at a
farm bureau camp where they don't
even have to wring out their own
bathing suits.The Farm Women's Vacation
Camp was sponsored by the farm
bureau which invited all members
to send their wives and daughters
for two weeks of real vacation.Nearly 100 already are enjoying the
outing. Recreation consists of boat-
ing, swimming and other sports,
with an absolute ban on all forms
of work.Husbands were forbidden to go to
camp and were told to remain at
home with the children and worry
along with the washing, the sweep-
ing, the cooking, the churning, and
bed-making, not to mention feed-
ing the chickens and gathering the eggs.

BICYCLE RACE REVIVED

With the revived interest in cy-
cling in England have appearedsome of the old bicycle contests. One
is the hat race, and it has brought
forth much merriment this season.
A number of old hats are placed
crown downward, in a row about
half way along the track, with one
hand, try to wedge his head in
the hat. Only when he has the head-
piece firmly on his head may he
remount and ride to the winning
post.Stratton Porter's

feeling better than I have for the
past seven years, and advise my
friends to take it."—Mrs. F. JOHNSON,
49 Moore Street, St. Thomas, Ont. C.PAINS ALL
OVER BODYTwo More Cases of Feminine Ill-
ness Relieved by Lydia E. Pink-
ham's Vegetable CompoundBarrington, N. S.—"I had terrible
feelings, headaches, back and side
aches and pains all over my body. I
would have to go to bed every month
and nothing would do me good. My
husband and my father did my work
for me as I have two children and
we have quite a big place. I read in
the paper about Lydia E. Pinkham's
Vegetable Compound, and I got a
little book about it through the mail,
and my husband sent to Eaton's and
got me a bottle, and then we got
more from the store. I am feeling
fine now and do all my work and am
able to go out around more. I tell my
friends it is Lydia E. Pinkham's Vege-
table Compound that makes me feel
so well."—Mrs. VICTOR RICHARDSON,
Barrington, Nova Scotia.

Dull Pains in Back

St. Thomas, Ont.—"I took four
bottles of Lydia E. Pinkham's Vege-
table Compound and found great re-
lief from the dull, heavy pains in the
small of my back and the weakness
from which I suffered for five years
after my boy was born. After taking
the Vegetable Compound and Lydia E.
Pinkham's Sanative Wash I am
feeling better than I have for the
past seven years, and advise my
friends to take it."—Mrs. F. JOHNSON,

Fastest Seaplane Ever Built In Britain

Above is the Fastest Seaplane Ever Built in England. Known as a Supermarine Monoplane, 'It is on Three of These Machines That Britain Has Pinned Her Hopes of Recapturing the Famous Schneider Cup for Seaplanes Next Month at Venice. Rumor Has It That These Secret Planes Can Exceed 300 Miles an Hour.

Officials Inspect Beaches at Sooke

SOOKE, Aug. 31.—Mr. G. R. Naden, Deputy Minister of Lands, accompanied by Mr. H. Cathcart, Superintendent of Lands, inspected the beaches at Whiffen Spit, Sooke Harbor, with the object in view of ascertaining its condition and to have the beach cleaned up.

In view of the fact that Whiffen Spit has become the popular resort for Victorians, as well as tourists from all parts, the removal of stones, logs and debris would greatly add to the safety and attraction of the beaches.

WHALE AT SOOKE

SOOKE, Aug. 31.—A large black fish entered Sooke Harbor on Tuesday, and was watched with interest by a number of residents as it pursued its way up the channel.

Memorial Pulpit To Be Dedicated

LANGFORD, Aug. 31.—A war memorial service will be held in St. Matthews Church, Langford, next Sunday at 7 p.m. Archdeacon Laycock will officiate and the new memorial pulpit will be dedicated. Special music will be provided and a cordial invitation is extended to all, particularly to ex-service men and their families. Communion service will be held at 8:30 a.m.

Vimy Social Club

The directors of Vimy Social Club met at Vimy Hall on Tuesday evening. In the absence of the president, Mr. T. H. S. Horsfall, the vice-president, Mr. E. Lemon, presided. It was decided that, owing to the lateness of the season, the general meetings of the club would be resumed on Saturday, October 1, the opening date for the sports to be arranged by the sports committee. Plans for lighting the hall during the winter months were discussed; also for the digging of a well on the club property. Final arrangements of these matters will be made early in September.

Tennis at Langford

LANGFORD, Aug. 31.—At a meeting of the Langford Lawn Tennis Club, held last night, it was decided that a mixed doubles tournament be held on Saturday afternoon at 2 o'clock. Single sets will be played until the finals. Prizes will be given and afternoon tea served. Visitors will be welcomed.

LANGFORD SCHOOL

LANGFORD, Aug. 31.—The school will reopen on Tuesday, September 6, at 9 a.m. Dr. Irene Bastow Hudson and Mrs. Kelly, school nurse, will make an official inspection of the children on Tuesday morning.
